SECTION II. INTRODUCTION

A. RISK FACTORS

Standard Risk Factors:

- Investment in Mutual Fund Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal.
- As the price / value / interest rates of the securities in which the scheme invests fluctuate, the value of your investment in the scheme may go up or down. As with any investment in stocks, shares and securities, the NAV of the Units under the Scheme can go up or down, depending on the factors and forces affecting the capital markets.
- Past performance of the Sponsor/AMC/Mutual Fund does not guarantee future performance of the scheme.
- Principal Global Opportunities Fund is only the name of the Scheme and does not in any manner indicate either the quality of the scheme or its future prospects and returns.
- The sponsor or any of its associates including co-settlors are not responsible or liable for any loss resulting from the operation of the scheme beyond the initial contribution of Rs. 25 lakhs made by it towards setting up the Fund.
- The present scheme is not a guaranteed or assured return scheme

Scheme Specific Risk Factors:

Currently Principal Global Investors - Emerging Market Equity Fund (PGIEMEF) - a fund managed by Principal Global Investors -LLC (USA) has been identified as the portfolio for the purpose of investment in overseas mutual fund. Principal Global Investors Funds is an umbrella unit trust, which is authorized in Ireland as an Undertaking for Collective Investments in Transferable Securities (UCITS). The Unit Trusts has created a number of sub-funds including Emerging Market Equity Fund. The investment universe of PGI-EMEF includes investing predominantly in the equity of companies domiciled in, or doing business in emerging countries and economies, Eastern Europe (including Russia), Asia and Latin America.

However the Scheme may also invest, at the discretion of the Trustee in the units of other similar overseas mutual fund schemes, which may constitute a significant part of its corpus. Further a certain portion of the scheme corpus may also be invested in money market securities and /or units of money market/liquid schemes of Principal Mutual Fund.

Hence scheme specific risk factors of such underlying schemes/instruments will be applicable. All risks associated with such schemes/instruments, including performance of their underlying units, stocks, off-shore investments etc., will therefore be applicable in the case of the Scheme. Further any change in the investment policies or the fundamental attributes of PGI-EMEF or in underlying schemes of any other similar Overseas Mutual Fund where the Scheme may invest could impact the performance of the Scheme.

To the extent the assets of the Scheme are invested in PGI-EMEF or other similar Overseas Mutual Fund, the performance, risk profile and liquidity of the Scheme will be directly related to those of PGI-EMEF or other similar Overseas Mutual Fund. PGI-EMEF or any other similar Overseas Mutual Fund in which the Scheme invests may not perform in line with the market/s and may also not achieve its investment objective. In such a situation, the performance of the Scheme could be affected and its ability to achieve its investment objective may be impaired.

Investors who intend to invest in the Scheme are required to and deemed to have understood the risk factors of the underlying schemes.

The disclosures in portfolio statement of the Scheme may be limited to the units of PGI-EMEF or other similar Overseas Mutual Fund and Money Market /Liquid Instruments in which investments have been made by the Scheme. Investors may, therefore, not be able to obtain specific details of the investments made by the PGI-EMEF or other similar Overseas Mutual Fund in which the Scheme has invested. The Investors shall bear the recurring expenses of the Scheme in addition to those of the underlying schemes. Therefore, the returns that they may receive may be materially impacted or may, at times, be lower than the returns that the investors directly investing in the underlying schemes could obtain. Value / NAV of PGI-EMEF or other similar Overseas Mutual Fund may be made

available with a time lag up to 24 hours depending upon the time zone differences and laws applicable to PGI-EMEF or other similar Overseas Mutual Fund.

In case PGI-EMEF or other similar Overseas Mutual Fund winds up, the scheme may have to find a similar alternative scheme. Until such alternative is found and investments transferred into it, the Scheme may not earn scheme objective related returns.

Risk associated with investing in money market/liquid instruments -

Price-Risk or Interest-Rate Risk: Fixed income securities such as bonds, debentures and money market instruments run price-risk or interest-rate risk. Generally, when interest rates rise, prices of existing fixed income securities fall and when interest rates drop, such prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of interest rates.

Credit Risk: In simple terms this risk means that the issuer of a debenture/ bond or a money market instrument may default on interest payment or even in paying back the principal amount on maturity. Even where no default occurs, the price of a security may go down because the credit rating of an issuer goes down. It must, however, be noted that where the Scheme has invested in Government Securities, there is no credit risk to that extent.

Re-investment Risk: Investments in fixed income securities may carry reinvestment risk as interest rates prevailing on the interest or maturity due dates may differ from the original coupon of the bond. Consequently, the proceeds may get invested at a lower rate.

Interest rate movement (Basis Risk): The changes in the prevailing rates of interest will likely affect the value of the Scheme's holdings until the next reset date and thus the value of the Schemes' Units. Increased rates of interest, which frequently accompany inflation and/ or a growing economy, are likely to have a negative effect on the value of the Units. The value of securities held by the Scheme generally will vary inversely with changes in prevailing interest rates. The fund could be exposed to the interest rate risk (i) to the extent of time gap in resetting of the benchmark rates, and (ii) to the extent the benchmark index fails to capture the interest rate movement.

Prepayments and Charge Offs Risk: In the event of prepayments, investors may be exposed to changes in tenor and yield. Also, any Charge Offs would result in the reduction in the tenor of the Pass Through Certificates (PTCs).

Spread Risk: In a floating rate security the coupon is expressed in terms of a spread or mark up over the benchmark rate. However depending upon the market conditions the spreads may move adversely or favourably leading to fluctuation in NAV.

Risks associated with Investing in Foreign Securities

Subject to necessary approvals and as per its investment objectives, the Scheme shall predominantly invest in overseas mutual fund schemes which carry risks related to fluctuations in the foreign exchange rates, the nature of the securities market of the country, repatriation of capital due to exchange controls and political circumstances.

Overseas investments will be made subject to any/all approvals, conditions thereof as may be stipulated under the Regulations or by RBI and provided such investments are consistent with costs and expenses attendant to international investing and do not result in expenses to the Scheme in excess of the ceiling on expenses prescribed under Regulations. The Fund, where necessary, may appoint other intermediaries of repute as advisors, custodian/sub custodians etc. for managing and administering such investments. The appointment of such intermediaries shall be in accordance with the applicable requirements of SEBI and within the permissible ceilings of expenses. The fees and expenses would illustratively include, besides the investment management fees, custody fees and costs, fees of appointed advisors and sub-managers, transaction costs and overseas regulatory costs.

To the extent that the assets of the Scheme will be invested in securities denominated in foreign currencies, the Indian Rupee equivalent of the net assets, distributions and income may be adversely affected by changes in the value of certain foreign currencies relative to the Indian Rupee. The repatriation of capital to India may also be hampered by changes in regulations concerning exchange controls or political circumstances as well as the application to it of other restrictions on investment

Specific Risk Considerations related to Principal Global Investors Fund - Emerging Market Equity Fund:-

Since Principal Global Investors Fund - Emerging Market Equity Fund (PGIEMEF) would be investing predominantly in equity securities of companies domiciled in, or doing business in emerging countries and economies it would involve certain considerations which are not normally involved in investment in more developed securities markets and an investment in these emerging markets may be considered speculative.

Risks associated with investing in units of PGI-EMEF or in any other similar Overseas Mutual Fund include the following;

Currency Depreciation - The assets of PGI-EMEF may be invested in securities which are denominated in currencies other than those of developed countries and any income received by PGI-EMEF from those investments will be received in those currencies. Historically most of the non- developed countries currencies have experienced significant depreciation against / continue to fall in value against currencies of developed countries. Because PGI-EMEF calculates its Net Asset Value per Unit and makes any distribution in the relevant Base Currency there is therefore a currency exchange risk which may affect the value of the Units of the Scheme.

Country Risk - The value of PGI-EMEF's assets may be affected by uncertainties within each individual emerging market country in which it invests, such as changes in government policies, nationalisation of industry, taxation, currency repatriation restrictions and other developments in the law or regulations of the countries in which PGI-EMEF may invest and, in particular, by changes in legislation relating to the level of foreign ownership in companies in some emerging countries.

Stock Market Practices - Many emerging markets have, at times, experienced periods of rapid growth and are less regulated than many of the world's leading stock markets. In addition, market practice in relation to settlement of securities transactions and custody of assets in emerging markets can provide increased risk to PGI-EMEF and may involve delays in obtaining accurate information on the value of securities (which may as a result affect the calculation of the Net Asset Value per Unit). The stock markets, in general, are less liquid than those of the world's leading stock markets. Purchases and sales of investments may take longer than would otherwise be expected on developed stock markets and transactions may need to be conducted at unfavourable prices.

Information Quality - Accounting, auditing and financing reporting standards, practices and disclosure requirements applicable to some issuers in emerging markets in which PGI-EMEF may invest may differ from those applicable in more developed markets in that less information is available to investors and such information may be out of date.

Derivatives - General: PGI - EMEF may use derivatives to hedge market and currency risk, and for the purposes of efficient portfolio management. The use of derivatives may expose PGI-EMEF to a higher degree of risk. In particular, derivative contracts can be highly volatile, and the amount of initial margin is generally small relative to the size of the contract so that transactions are geared. A relatively small market movement may have a potentially larger impact on derivatives than on standard bonds or equities.

B. REQUIREMENT OF MINIMUM INVESTORS IN THE SCHEME

The Scheme shall have a minimum of 20 investors and no single investor shall account for more than 25% of the corpus of the Scheme. The two conditions mentioned above shall be complied in each calendar quarter, on an average basis, as specified by SEBI. In case the Scheme does not have a minimum of 20 investors, the provisions of Regulation 39(2)(c) of the SEBI (MF) Regulations would become applicable automatically without any reference from SEBI and accordingly the Scheme shall be wound up and the units would be redeemed at applicable NAV. If there is a breach of the 25% limit by any investor over the quarter, a rebalancing period of one month would be allowed and thereafter the investor who is in breach of the rule shall be given 15 day's notice to redeem his exposure over the 25 % limit. Failure on the part of the said investor to redeem his exposure over the 25 % limit within the aforesaid 15 days would lead to automatic redemption by the Mutual Fund at the applicable Net Asset Value on the 15th day of the notice period. The Fund shall adhere to the requirements prescribed by SEBI from time to time in this regard.

C. SPECIAL CONSIDERATIONS

Investment in the Scheme should be viewed by an investor/unit holder as a medium to long term investment as mutual funds carry normal market risks and there can be no assurance and no guarantee that the Scheme will achieve its objective. It is recommended that an investment in the Scheme should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all, as investment decisions made by the AMC will not always be profitable or prove to be correct. As with any investment in stocks, shares and securities, the NAV of the Units under the Scheme can go up or down, depending on the factors and forces affecting the capital markets. Past performance of the schemes of Principal Mutual Fund, the Sponsor or its Group affiliates is not indicative of and does not guarantee the future performance of the scheme. The name of the Scheme does not in any manner indicate the quality of the Scheme, its future prospects or the returns. The Scheme is not intended as a complete investment program. Investors, therefore, are urged to study the terms of this offer carefully and consult their Investment Advisor before they invest in the Scheme. Investors'/unitholders' attention is drawn to the risk factors set out in the beginning of this Scheme Information Document and also to the following specific risks:

Regulatory Risks: Neither this Scheme Information Document nor the Units have been registered in any jurisdiction. The distribution of this Scheme Information Document in certain jurisdictions may be restricted or subject to registration requirements and, accordingly, persons who come into possession of this Scheme Information Document are required to inform themselves about, and to observe, any such restrictions. No person receiving a copy of this Scheme Information Document or any accompanying application form in such jurisdiction may treat this Scheme Information Document or such application form as constituting an invitation to them to subscribe for Units, nor should they in any event use any such application form, unless in the relevant jurisdiction such an invitation could lawfully be made to them and such application form could lawfully be used without compliance with any registration or other legal requirements. Accordingly, this Scheme Information Document does not constitute an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not lawful or in which the person making such offer or solicitation is not qualified to do so or to anyone to whom it is unlawful to make such offer or solicitation. It is the responsibility of any persons in possession of this Scheme Information Document and any persons wishing to apply for Units pursuant to this Scheme Information Document to inform themselves of and to observe, all applicable laws and Regulations of such relevant jurisdiction.

Prospective investors should review/study this SID along with SAI carefully and in its entirety and shall not construe the contents hereof or regard the summaries contained herein as advice relating to legal, taxation, or financial/ investment matters and are advised to consult their own professional advisor(s) as to the legal or any other requirements or restrictions relating to the subscription, gifting, acquisition, holding, disposal (sale, transfer, switch or redemption or conversion into money) of Units and to the treatment of income (if any), capitalization, capital gains, any distribution, and other tax consequences relevant to their subscription, acquisition, holding, capitalization, disposal (sale, transfer, switch or redemption or conversion into money) of Units within their jurisdiction/of nationality, residence, domicile etc. or under the laws of any jurisdiction to which they or any managed Funds to be used to purchase/gift Units are subject, and (also) to determine possible legal, tax, financial or other consequences of subscribing/ gifting to, purchasing or holding Units before making an application for Units.

No person has been authorized to give any information or to make any representations not confirmed in this Scheme Information Document in connection with the Offer of Units, and any information or representations not contained herein must not be relied upon as having been authorized by the Mutual Fund or the AMC or the Trustee. Statements made in this Scheme Information Document are based on the law and practice currently in force in India and are subject to change therein. Neither the delivery of this Scheme Information Document nor any sale made hereunder shall, under any circumstances, create any impression that the information herein is correct as of any time subsequent to the date hereof.

Performance Risk: The value of (and income from) an investment in the Scheme can decrease as well as increase, depending on a variety of factors, which may affect the values and income generated by a Scheme's portfolio of securities. The returns of a Scheme's investments are based on the current yields of the securities, which may be affected generally by factors affecting capital markets such as price and volume, volatility in the stock markets, interest rates, currency exchange rates, changes in government and Reserve Bank of India policy, taxation, political, economic or other developments and closure of the stock exchanges. Investors should understand that the investment composition indicated for the Scheme, in line with prevailing market conditions, is only a hypothetical example as all investments involve risk and there can be no assurance that the Scheme's investment objective will

be attained nor will the Scheme be in a position to maintain the model percentage of investment pattern/composition particularly under exceptional circumstances such that the interest of the unitholders are protected.

Changes in the prevailing rates of interest is likely to affect the value of the Scheme investments and thus the value of the Scheme's Units. The value of money market instruments held by the Scheme generally will vary inversely with the changes in prevailing interest rates.

Techniques Risk: The Scheme may use techniques and instruments that may be permitted and/or that may become permissible under SEBI/RBI Regulations and/or Regulations and/or statutory modification or re-enactment thereof for efficient portfolio management and to attempt to hedge or reduce the risk of such fluctuation. However, these techniques and instruments, if imperfectly used have the risk of the scheme incurring losses due to mismatches particularly in a volatile market. The Fund's ability to use these techniques may be limited by market conditions, regulatory limits and tax considerations (if any). The use of these techniques is dependent on the ability to predict movements in the prices of securities being hedged and movements in interest rates. Besides, the fact that skills needed to use these instruments are different from those needed to select the Fund's/Scheme's securities. There is a possible absence of a liquid market for any particular instrument at any particular time even though the futures and options may be bought and sold on an organized stock exchange. The use of these techniques involves possible impediments to effective portfolio management or the ability to meet repurchase/redemption requests or other short-term obligations because of the percentage of the Scheme's assets segregated to cover its obligations.

Political Risk: Whereas the Indian market was formerly restrictive, a process of deregulation has been taking place over recent years. This process has involved the removal of trade barriers and other protectionist measures, which could adversely affect the value of investments. It is possible that future changes in the Indian political situation, including political, social, or economic instability, diplomatic developments and changes in laws or regulations could have an effect on the value of investments. Expropriation, confiscatory taxation, or other relevant developments could also affect the value of investments.

Forex Risk: To the extent that the assets of the Scheme are be invested in overseas mutual fund scheme(s) the Indian Rupee equivalent of the net assets, distribution and income may be adversely affected by changes in the value of respective foreign currencies relative to the Indian rupee. The repatriation of capital to India may also be hampered by changes in regulations concerning exchange controls or political circumstances as well as the application to it or other restrictions on investment. In addition, country risks would include events such as introduction of extraordinary exchange controls, economic deterioration and bi-lateral conflict leading to immobilisation of the overseas financial assets.

Liquidity and Settlement Risks: The liquidity of the Scheme's investments may be inherently restricted by trading volumes, transfer procedures and settlement periods. From time to time, the Scheme will invest in certain securities of certain companies, industries, sectors etc based on certain investment parameters as adopted internally by AMC. While at all times the Trustees and the AMC will endeavor that excessive holding/investment in certain securities of industries, sectors, etc. by the Scheme be avoided, the assets invested by the Scheme in certain securities of industries, sectors, etc. may acquire a substantial portion of the Scheme's investment portfolio and collectively may constitute a risk associated with non-diversification and thus could affect the value of investments. The Scheme may have difficulty in disposing of certain securities because the security may be unlisted, due to greater price fluctuations there may be a thin trading market, different settlement periods and transfer procedures for a particular security at any given time. Settlement, if accomplished through physical delivery of stock certificates, is labour and paper intensive and may affect the liquidity. It should be noted that the Fund bears the risk of purchasing fraudulent or tainted papers. The secondary market for money market securities does exist, but is generally not as liquid as the secondary market for other securities. Reduced liquidity in the secondary market may have an adverse impact on market price and the Scheme's ability to dispose of particular securities, when necessary, to meet the Scheme's liquidity needs or in response to a specific economic event, such as the deterioration in the creditworthiness of the issuer, etc. or during restructuring of the Scheme's investment portfolio. Furthermore, from time to time, the AMC, the Custodian, the Registrar, any Associate, any distributor, dealer, any company, corporate bodies, trusts, any scheme/Mutual Fund managed by the AMC or by any other AMC may invest in the Scheme. While at all times the Trustees and the AMC will endeavor that excessive holding of Units in the Scheme among a few unitholders is avoided, however, the amounts invested by these aforesaid persons may acquire a substantial portion of the Scheme's outstanding Units and collectively may constitute a majority unitholder in the Scheme. Accordingly, redemption of Units held by such persons may have an adverse impact on the value of the redemption and may impact the ability of the unit holders to redeem their respective Units

SECTION III. INFORMATION ABOUT THE SCHEME

A. TYPE OF THE SCHEME

An open-ended Fund of Funds Scheme.

B. WHAT IS THE INVESTMENT OBJECTIVE OF THE SCHEME?

The investment objective of the Scheme is to provide long term capital appreciation by predominantly investing in overseas mutual fund schemes, and a certain portion of its corpus in Money Market Securities and/or units of Money Market / Liquid Schemes of Principal Mutual Fund.

C. HOW WILL THE SCHEME ALLOCATE ITS ASSETS?

Under normal circumstances, the asset allocation pattern of the Scheme would be as follows:

Type of Instrument	Normal Allocation (% of Net Assets)		Risk Profile
	Minimum	Maximum	
Units of *overseas mutual fund scheme(s).	85	100	High
Money market securities and/or units of money market/liquid schemes of Principal Mutual Fund.	0	15	Low to Medium

*Currently Principal Global Investors - Emerging Market Equity Fund - a fund advised by Principal Global Investors - LLC (USA) has been identified as the portfolio for the purpose. Trustees, at their discretion, may decide to shift full or part of the investments to any other similar overseas mutual fund scheme(s).

There is no assurance that the objective of the Scheme may be achieved. Subject to the SEBI Regulations, the asset allocation pattern indicated above may change from time to time, keeping in view market conditions, market opportunities, applicable regulations and political and economic factors. It must be clearly understood that the percentages stated above are only indicative and not absolute. These proportions may vary substantially depending upon the perception of the AMC; the intention being at all times to seek to protect the NAV of the Scheme and interests of the Unit-holders. Such changes in the investment pattern will be for short term and for defensive considerations only.

Any change in the investment composition of the Scheme and amounting to a change in the fundamental attributes of the Scheme will be in accordance with Sub Regulation 15A of Regulation 18 of SEBI Regulations.

However, the AMC may from time to time, for a short term, alter the asset composition on defensive consideration and may also invest in inter-bank call/notice money market (as and when permitted under the regulations), repos, bank deposits and/ or other securities in accordance with provisions of SEBI (Mutual Funds) Regulations, 1996 and the circulars issued by SEBI from time to time, the primary motive being to protect the Net Asset Value of the Scheme and protect unitholders interest so also to earn reasonable returns on liquid assets maintained for redemption of units.

INVESTMENT PROCESS

There is separate team for investment in fixed income instruments & equities. The team works under the supervision of Chief Investment Officer (CIO). CIO is overall in charge for the Fund's investment.

The Investment Manager will carry out the daily investment activities within the framework of SEBI guidelines in accordance with the investment objective as per the Scheme Information Document. The Board of AMC and Trustee reviews the performance of the Scheme in comparison to corresponding schemes of other mutual funds with

similar investment objective and asset profile generally. The performance of the Scheme will be compared with benchmark.

Review by Board of AMC and Trustees

A detailed review of the schemes of the Fund including their performance vis-à-vis benchmark index, assets size, rankings/ratings received, if any is placed before the Board of Directors of AMC and to the Trustee on a quarterly basis.

D. WHERE WILL THE SCHEME INVEST?

Subject to SEBI Regulations and guidelines issued by SEBI on overseas investments, the Scheme may invest in various types of instruments including, but not limited to, any of the following:

- In overseas mutual fund schemes (predominantly). Currently Principal Global Investors - Emerging Market Equity Fund - a fund managed by Principal Global Investors -LLC (USA) has been identified as the overseas mutual fund portfolio for the purpose. However, Trustees at their discretion may decide to shift full or part of the investments to any other similar mutual fund scheme(s).
- Money Market Securities and/or units of Money Market / Liquid Schemes of Principal Mutual Fund, in order to meet liquidity requirement from time to time.
- However, due to market conditions, the AMC may invest beyond the range set out above. Such deviations shall normally be for a short term defensive considerations, and the intention being at all times to protect the interests of the Unit Holder.
- Such other Securities as may be permitted / prescribed by SEBI/RBI from time to time

Depository

Securities of the Scheme will be held in dematerialised form and accordingly the rules of the Securities and Exchange Board of India (Depositories and Participants) Regulations, 1996, would apply. The service charges payable to the Depository Participant will form a part of the annual recurring expenses.

E. WHAT ARE THE INVESTMENT STRATEGIES

Risk Control Measures:-

The Scheme will be predominantly investing in overseas mutual fund schemes. Currently Principal Global Investors - Emerging Market Equity Fund – a fund advised by Principal Global Investors - LLC (USA) has been identified as the overseas mutual fund portfolio for the purpose. Trustees, at their discretion, may decide to shift full or part of the investments to any other similar overseas mutual fund scheme(s).

The Scheme may also invest, at the discretion of the Investment Manager, in the units of other similar overseas mutual fund schemes, which may constitute a significant part of its corpus, and a certain portion of its corpus in Money Market Securities and/or units of Money Market / Liquid Schemes of Principal Mutual Fund, in order to meet liquidity requirement from time to time.

However, there is no assurance that the investment objective of the scheme will be retained.

As per the investment strategy of PGI-EMEF, it will predominantly invests in the equity securities of companies domiciled in, or doing business in emerging countries and economies, eastern Europe (including Russia), Asia and Latin America.

Portfolio Turnover Rate

The Portfolio Turnover Rate (PTR) means the lower of aggregate sales or purchases made during a particular year/period divided by the Average Asset under Management (average of Assets under Management on last day of month) for the relevant year/period.

"Portfolio Turnover" is the term used by any Mutual Fund for measuring the amount of trading that occurs in a Scheme's portfolio during the year. The Scheme is an open-ended Fund of Funds scheme. It is expected that there may be a number of subscriptions and repurchases on a daily basis. Moreover, portfolio turnover in the Scheme will be a function of market opportunities. The economic environment changes on a continuous basis and exposes portfolio to systematic as well as non-systematic risk. Consequently, it is difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolio. However, a high turnover would significantly affect the brokerage and transaction costs. This will exclude the turnover caused on account of:

- Investing the initial subscription,
- Subscriptions and redemption undertaken by the unit holders.

The AMC will endeavor to balance the increased cost on account of higher portfolio turnover with the benefits derived therefrom. A high portfolio turnover rate is not necessarily a drag on portfolio performance and may be representative of arbitrage opportunities that exist for scrips/securities held in the portfolio rather than an indication of a change in AMC's view on a scrip, etc.

Special Facilities for Investors / Unit holders

The Fund reserves the right to amend or terminate or introduce special facilities in the SID.

The current special facilities offered are as follows:

1. Systematic Investment Plan

Systematic Investment Plan (SIP) is available for planned and regular investments. Under SIP, unit holders can benefit by investing specified rupee amounts periodically for a continuous period. This concept is called Rupee Cost Averaging. This program allows unit holders to save a fixed amount of rupees every month/quarterly by purchasing additional units of the Scheme.

Example

Let us take an example of a unit holder who invests Rs3000/- per month

Month	NAV	Amount (Rs)	Units
April 1	10.50	3000	285.71
May 1	10.65	3000	281.69
June 1	10.05	3000	298.50
July 1	9.75	3000	307.69
August 1	9.60	3000	312.50
September 1	9.50	3000	315.79
October 1	9.25	3000	324.32
November 1	9.05	3000	331.49
December 1	8.90	3000	337.08
January 1	8.75	3000	342.86
February 1	8.50	3000	352.94
March 1	8.80	3000	340.91
TOTAL		36000	3831.48

Note: The figures of NAV are hypothetical and are for illustrative purposes only.

At the end of one year the unitholder would have 3831.48 units, at an average per unit cost of Rs. 9.40.

Rupee Cost Averaging does not guarantee a profit nor protect against a loss. Rupee Cost Averaging can smooth out the market's ups and downs and reduce the risk of investing in volatile markets.

Features of the SIP

1. SIP Applications will be accepted on any working day of the month. Accordingly the units will be allotted on the date of receipt of valid SIP Application along with a SIP investment cheque dated not beyond the date

of the Application. Thereafter the date for the first SIP installment shall be 1st, 5th, 15th or 25th of a particular month ("specified dates for SIP investments") as selected by the Investor OR the nearest date amongst the Specified Date subsequent to receipt of the application, as the case may be after completing a minimum time gap of 30 days from the date of the first SIP investment cheque. E.g. If a duly completed SIP enrolment is received within the applicable cut-off timings on January 27, 2013 along with a valid cheque dated not beyond January 27, 2013, for a SIP investment of Rs. 2000/- per month (together with 5 or more post dated cheques (PDCs) each for a minimum of Rs.2000/-), the scheme applicable NAV, and the next SIP date [first SIP Installment date] will be March 1, 2013 or immediately following business day if March 1, 2013 is a non-business day OR such other date amongst the Specified Dates as per the application form.

2. Investors, who wish to opt for ECS (debit clearing) facility available with select banks, should ensure that there is a minimum time gap of 30 days between the first cheque for SIP enrolment and first installment of SIP through ECS or Direct Debit. Dishonoured cheque(s) may not be presented again for collection.
3. Unit holders need not submit a copy of cancelled cheque provided the SIP Auto Debit Facility Enrolment Form is attested by the Bank from which SIP installments will be debited.
4. Unit holders have the right to discontinue the SIP facility at any time by sending a written request to any of the designated Investor Service Centers (ISCs) of Principal Mutual Fund. Please also note that notice of such discontinuation should be received at least 18 working days prior to the due date of the next SIP installment.
5. SIP enrolment will be discontinued by AMC in case [a] the SIP installment is not honored consecutively for three SIP installments [b] if any installment of a SIP transaction gets rejected due to the bank account of the Investor being closed, the SIP would be suspended for subsequent SIP transactions and registration will be cancelled for SIP through Auto Debit / PDC/ Direct Debit / Standing Instruction (SI) [c] the Bank account [for ECS (Debit Clearing) and / or Direct Debit / Standing Instruction and / or PDCs for direct debit] is closed and the request for change in bank account / Bank Branch is not submitted by the concerned unit holder at least 15 working days before the due date of next SIP installment[d] if the Bank account is frozen for further commercial transaction by the Bank. Further, in such cases the balance cheques, if any, will be returned to the unit holder.

Micro SIP:

Pursuant to SEBI's communication to AMFI vide its letter dated June 19, 2009; AMFI has issued guidelines for uniform implementation of the said SEBI letter. In accordance to the same, Systematic Investment Plans (SIP) up to R,000/- per year per investor ('Micro SIP') shall be exempt from requirement of PAN.

This exemption will be applicable ONLY to investments by individuals (including NRIs but not PIOs), Minors and Sole proprietary firms. HUFs and other categories will not be eligible for Micro SIPs. Details on Micro SIP are available in Statement of Additional Information.

However, effective January 1, 2012, new Investors registering for Micro SIP have to mandatorily submit KYC acknowledgement letter.

Systematic Investment Plan (SIP) for Corporate Employees.

With a view to encourage employees of Corporate to invest their savings into the various Schemes of our Mutual Fund through payroll deductions, Principal Mutual Fund provides an investment facility to the employees of Corporate under the Employee Savings Plan (ESP).

This feature will be guided by the terms and conditions as laid down below:

1. Under this feature the employees can submit application vide the normal application and/or ESP Forms. The employee is required to fill the details in the normal application/ ESP form providing the details of amount and duration of such SIP installments and the details of such investment should also be provided to the Human Resources Department of such Corporate (HRD).
2. The employees should instruct the HRD to deduct the amount of Investment every month / quarter from their salary for such period as indicated by him / her. Such periodicity shall be monthly or quarterly.
3. The minimum amount and periodicity, to be contributed to open an account under this option is as per the minimum scheme requirements as prescribed under Systematic Investment Plan/additional subscription of the Scheme.
4. The periodic employee contribution should at least be equal to the minimum application amount of SIP . The employee has an option to select either 1st or 5th of every month for such investment.
5. The employee can seek redemption independently.
6. The applicable NAV for application received under such plan, will be as per the date and time (refer to section on cut off timing) on which the request / payment instrument and sheet detailing the list of Investment of such employees, is received from HRD of such Employees at the Official Points of Acceptance of AMC .

2. Systematic Transfer/Switch Plan

The unitholder may set up a Systematic Switching Plan on a daily, weekly, monthly, quarterly, semi-annual or annual basis to transfer a fixed number of units and /or amount in one scheme to another scheme or one plan/option to another.

Once the unitholder sets up a Systematic Switching Plan the plan would continue until:

- the unitholder instructs the Fund to stop periodic switching in writing; or
- the unitholder's account balance is zero.

The unitholder has an option to select 1st, 11th or 21st day of the month on which the Systematic Switch is to be made.

If the selected date is not a business day, the switch will take place on the next business day. All switches are subject to the minimum investment and eligibility requirements of the switch in scheme.

In case of daily and weekly frequency, STP will take place as under:

- (i) Daily – Each Business Day
- (ii) Weekly – Every Monday*

* Next Business Day if Monday is a non-business day

All switches are subject to the minimum investment and eligibility requirements of the switch in scheme

The amount subject to an exit load, if any, thus switched shall be converted into the respective scheme units at the applicable NAV, (on which date the payment/switch is scheduled), and such units will be subtracted from the unit balance of that unitholder. The minimum balance amount needed for the Systematic Switch Plan may be altered from time to time at the discretion of the AMC.

Unitholders may change the amount of systematic withdrawal/switch but not below the specified minimum amount of repurchase for a particular Scheme by giving 30 days written notice to the Registrars/AMC. The various triggers for activating a systematic withdrawal and/or switch facility can also be used for activating a normal repurchase and/or switch facility.

3. Systematic Withdrawal Plan

A unitholder may avail of the Systematic Withdrawal Plan and receive regular payments from the account. The unitholder has an option to select 1st, 11th or 21st day of the month on which the Systematic Withdrawal is to be made.

The unitholder may set up a Systematic Withdrawal Plan on a monthly, quarterly or semi-annual or annual basis as follows:

- Redeem a fixed number of units
- Redeem a fixed amount

Once the unitholder sets up a Systematic Withdrawal Facility the plan would continue until:

- The unitholder instructs the Fund to stop periodic withdrawal in writing; or
- The unitholder's account balance is zero
- On expiry of the time/period specified by the unitholder

Withdrawal payments will be endeavoured to be sent within 3 Business Days after the repurchase date. The minimum balance amount needed for the Systematic Withdrawal Plan may be altered from time to time at the discretion of the AMC.

Unitholders may change the amount of systematic withdrawal/switch but not below the specified minimum amount of repurchase for a particular Scheme by giving 30 days written notice to the Registrars/AMC. The various triggers for activating a systematic withdrawal and/or switch facility can also be used for activating a normal repurchase and/or switch facility.

4. Switch Facility

Investors can opt to switch between Regular Plan & Direct Plan and Options therein, at NAV based prices. Switching will also be allowed from any select open ended scheme(s) managed under the Fund into either scheme existing on the date of switch or during the NFO period of the new scheme(s) at NAV based prices.

In the case of NRIs, FIIs, etc. switching will be subject to necessary approval (if any) from the Reserve Bank of India and any other approval as applicable.

Tax deduction at source, if any, will be effected at the appropriate rate in case of a switch and the balance amount would be utilized to exchange units to the other Scheme.

Switch from the Scheme into other existing schemes would be available on a continuous basis, subject to exit load, as may be applicable.

A request for switch may be specified either in terms of amount or in terms of the number of units of the scheme/plan/option from which the switch is sought. Such instructions may be provided in writing by completing the switch form or using the relevant tear off section of the Transaction Slip that may be enclosed with the Account Statement and lodging the same on any business day at any of the designated Official Points of Acceptance. The switch will be effected by redeeming units from the scheme in which the units are held and investing the net proceeds in the other Scheme, subject to the minimum balance applicable for the respective Scheme.

The price at which the units will be switched out of the scheme / into the scheme will be based on the applicable NAV of the relevant Scheme and after considering any exit loads. The Switch request will be subject to the minimum application amount and other terms and conditions of the scheme for which the Switch request has been made.

5. Triggers/ Alerts

Under this facility, the unit holders may opt for withdrawal and/or switch in the normal manner based on the value of investment either reaching upto or below or above/beyond a specified particular value; the capital appreciation/gains realization either equals to or becomes more/lower than a specified particular amount or percentage on happening of a particular event, on a particular date etc (subject to applicable lock in period, if any). Alerts act as a financial planning tool for information. The unit holder may subsequently continue in the scheme or otherwise withdraw/switch. For e.g. an account may be monitored and the unit holder either informed or account redeemed (no redemption will be permitted if under lock-in) as and when the balance reaches or crosses (rise or fall) a desired value or after a certain period of time etc. This helps the unit holders to minimise the loss and/or book timely profits. In case of triggers linked with events/dates, on realisation of gains (equal to/beyond/lower than), a specified amount / full amount / gains / appreciation etc. would be redeemed and paid either when the investment reaches upto and/or beyond (above or below) a particular value or after a particular period of time.

In case of triggers linked with gains/appreciation, at the option of the unit holder, either the amount equivalent to gains/appreciation would be redeemed or the full original investment amount would be redeemed and the gain/appreciation component paid to the unit holder/switched into other scheme/plan, and the original investment amount would be reinvested either in the same scheme/plan or any other scheme/plan.

ACTIVATION OF TRIGGER

Unit holders shall note that NAV of a scheme is determined on close of the business day taking into consideration closing prices of the securities on the primary stock exchange (*please refer to clause on “Valuation Policy” in the Statement of Additional Information & “Determination of Net Asset Value” in the SID*). Intra day prices are not considered for valuing the scheme’s portfolio. Value of the unit holder’s unit balance at the end of a relevant business day based on that day’s NAV and closing value of a relevant index of a stock

exchange would be used as a base for activating the triggers. However all redemptions/switches/reinvestments etc. linked to triggers will always be at the applicable NAV based prices of the day on which the event occurs.

Please also note that the trigger is an additional facility provided to the unit holders to save time on completing the redemption/switch formalities on happening of a particular predetermined event. Trigger is not an assurance on part of AMC/Fund to the investor that he/she will receive a particular amount of money/appreciation and/or a percentage on redemption or will get a particular amount of capital appreciation or will minimise the loss to investor to a particular amount or percentage. Trigger is an event on happening of which the Fund will automatically redeem and/or switch the units on behalf of the investors on the date of happening of the event. In actual parlance, a trigger will activate a transaction/alert when the event selected for has reached a value greater or less than the specified particular value (trigger point).

Unit holders can opt from any one of the following event under trigger option:

1. *When value of investment of the unit holder reaches or crosses a particular value/falls to or closes below a particular value*

Eg. Investment Value reaches or crosses Rs.11000/-

Trigger Activation

If investment value at NAV based price is less than Rs. 11,000/-, trigger will be activated when value of the units at NAV held by unit holders rises to Rs. 11000/- or more on close of any business day.

Eg. Investment Value falls to or closes below Rs. 11000/-

If investment value at NAV based price is more than Rs. 11,000/-, trigger will be activated when value of the units at NAV held by unit holders falls to Rs. 11000/- or below on close of any business day. All transactions linked with trigger will be on the basis of NAV of the business day on which value of units held by unit holders reaches or crosses or falls below Rs.11,000/-.

2. *Capital appreciation of a particular amount*

Eg. Capital appreciation by Rs. 1000/-

Trigger Activation

Trigger will be activated when value of units invested at NAV based price appreciate by Rs. 1000/- or more at NAV on close of any business day. All transactions linked with trigger will be on the basis of NAV of the business day on which value of investment held by unit holders increases by at least Rs. 1000/-.

Eg. NAV reaches or crosses Rs. 11/-

Or when NAV falls to or closes below Rs. 11/-

If NAV on the date of allotment of investment is more than Rs. 11/-, trigger will be activated when NAV falls to Rs. 11/- or below on close of any business day. All transactions linked with trigger will be on the basis of NAV of the business day on which NAV reaches or crosses or falls below Rs. 11/-.

4. *BSE Sensex reaches or crosses a particular value*

Eg. BSE Sensex reaches or crosses 16000

Or when BSE Sensex falls to or closes below 16000

Trigger Activation

If BSE Sensex on the date of allotment of investment is less than 16000, then

trigger will be activated when BSE Sensex rises to 16000 or more on close of any business day. If BSE Sensex at the time of investment is more than 16000, then trigger will be activated when BSE Sensex falls to 16000 or below on close of any business day. All transactions linked with trigger will be on the basis of NAV of the business day on which close of day the BSE Sensex reaches or crosses or falls to or closes below 16000 mark.

5. NSE Nifty reaches or crosses a particular value

Eg. NSE Nifty reaches or crosses 5000

Or when NSE Nifty falls to or closes below 5000

Trigger Activation

If NSE Nifty on the date of allotment of investment is less than 5000, then trigger will be activated when NSE Nifty rises to 5000 or more on close of any business day. All transactions linked with trigger will be on the basis of NAV of the business day on which close of day the NSE Nifty reaches or crosses or falls below 5000 mark.

6. On a particular day or date

Eg. On 31/1/2013

Trigger Activation

Trigger will be activated on 31/1/2013. All transactions linked with trigger will be on the basis of NAV of 31/1/2013 or on 1/2/2013 if 31/1/2013 is not a business day.

7. Change in the value of units (held by unit holders) at least by certain percentage

Eg Change in Investment Value at least by (+ or — or +) 10%

Trigger Activation

Trigger will be activated when value of the units at NAV based price invested by unit holders rises to 10% or more at NAV on close of any business day; or Trigger will be activated when value of the units at NAV based price invested by unit holders falls by 10% or more at NAV on close of any business day; or Trigger will be activated when value of the units at NAV based price invested by unit holders either rises by 10% or more at NAV or falls by 10% or more on close of any business day.

Percentage rise or fall in value of units will be calculated on the amount invested by the unit holders.

8. Capital appreciation of at least a certain percentage

Eg. Capital appreciation of at least (+ or — or +) 10%

Trigger Activation

Trigger will be activated when value of the units at NAV based price invested by unit holders appreciate to 10% or more at NAV on close of any business day; or Trigger will be activated when value of the units at NAV based price invested by unit holders depreciates by 10% or more at NAV on close of any business day; or Trigger will be activated when value of the units at NAV based price invested by unit holders either appreciates by 10% or more at NAV or depreciates by 10% or more at NAV on close of any business day.

Difference between the value of units on close of a business day (at NAV) and amount invested (at NAV based price) will be used as a base for calculating percentage of capital appreciation.

9. Change in the NAV at least by a certain percentage

Eg. Change in NAV at least by (+ or — or +) 10%

Trigger Activation

Trigger will be activated when the NAV of the units rises by 10% or more on close of any business day compared with the NAV on the date of allotment of investment; or Trigger will be activated when the NAV of the units falls by 10% or more on close of any business day compared with the NAV on the date of allotment of investment; or Trigger will be activated when the NAV of the units either rises by 10% or more or falls by 10% or more on close of any business day compared with the NAV on the date of allotment of investment

Percentage rise or fall in NAV will be calculated comparing NAV on a particular business day with the NAV on the date of allotment of investment.

10. Change in the BSE Sensex at least by a certain percentage

Eg. Change in BSE Sensex at least by (+ or — or +) 10%

Trigger Activation

Trigger will be activated when the BSE Sensex rises by 10% or more on close of any business day compared with the BSE Sensex on the date of allotment of investment; or Trigger will be activated when the BSE Sensex falls by 10% or more on close of any business day compared with the BSE Sensex on the date of allotment of investment; or Trigger will be activated when the BSE Sensex either rises by 10% or more or falls by 10% or more on close of any business day compared with the BSE Sensex on the date of allotment of investment.

Percentage rise or fall in BSE Sensex will be calculated comparing BSE Sensex on a particular business day with the BSE Sensex on the date of allotment of investment.

11. Change in the NSE Nifty at least by a certain percentage

Eg. Change NSE Nifty at least by (+ or — or +) 10%

Trigger Activation

Trigger will be activated when the NSE Nifty rises by 10% or more on close of any business day compared with the NSE Nifty on the date of allotment of investment; or Trigger will be activated when the NSE Nifty falls by 10% or more on close of any business day compared with the NSE Nifty on the date of allotment of investment; or Trigger will be activated when the NSE Nifty either rises by 10% or more or falls by 10% or more on close of any business day compared with the NSE Nifty on the date of allotment of investment.

Percentage rise or fall in NSE Nifty will be calculated comparing NSE Nifty on a particular business day with the NSE Nifty on the date of allotment of investment;

On happening of any of the above mentioned events, the Unit holder can opt for the following action on the date of happening of the relevant event;

- Full redemption
- Redemption of gains only
- Full switch into other Scheme/Plan / Option of Principal Mutual Fund
- Switch of only gains into other Scheme / Plan/Option of Principal Mutual Fund
- Full Redemption: Original investment amount reinvested in any scheme of Principal Mutual Fund and gains paid to unit holder
- Full redemption: Gains reinvested in any Scheme/Plan/Option of Principal Mutual Fund and investment amount paid to unit holder
- Redemption of certain number of units
- Redemption of certain amount

Transactions linked with the triggers will be at the applicable NAV based price

of the business day on which the event takes place. Further all the predetermined events i.e. the value of the unit balance, capital appreciation, NAV, BSE Sensex, NSE Nifty will be compared with the value of units, NAV, BSE Sensex and NSE Nifty prevailing on the date of investment (i.e. date of allotment) irrespective of the fact whether the trigger is opted on the date of allotment of investment or subsequently. For eg an investor has invested at Rs. 11/- and opted for full redemption if NAV appreciates at least by 10%. Trigger will be activated on the business day when NAV moves to Rs. 12.10 (i.e. 10% more than Rs. 11/-) or more.

Triggers(s) linked to BSE Sensex or NSE Nifty will always compare the value of BSE Sensex or NSE Nifty on close of business day. In case BSE or NSE is open on a non-business day, its value will not be considered even if it reaches or crosses a trigger value, and on any subsequent business day if the value of BSE or NSE is reached, the same would be considered for trigger purposes. For eg. A unit holder has opted for full redemption if NSE Nifty reaches or crosses 5000 mark. If NSE is open on January 1, 2013, but it is not a business day for the Fund, trigger will not be activated (i.e. redemption will not take place) even though closing value of Nifty as on January 1, 2013, is 5000 or more.

The closing value of BSE Sensex/NSE Nifty on non business day will be ignored for trigger activation. A trigger once activated will not be reactivated in any other scheme where the switch/reinvestment happens or in the same scheme which retains part of the value or in case of normal redemption/switch before trigger activation. Triggers will be deactivated on redemption and/or switch and/or pledge of units except in case where Only Gains are to be redeemed or switched and opted for the same in the trigger form.

6. Future Goal Series

This Scheme is part of Principal Future Goals Series. The Future Goals Series is a carefully structured suite of scheme(s) designed to meet a wide range of investment needs. Not only do unit holders have a comprehensive choice of schemes(s) and plans within these scheme(s), but also it is easier for unit holders to move between Scheme(s) as their needs change. Initially four schemes namely Principal Growth Fund (Open ended equity scheme), Principal Income Fund (Open ended income scheme), Principal Balanced Fund (Open ended balanced scheme) and Principal Cash Management Fund (Open ended liquid scheme) were launched as part of Future Goals Series. Subsequently Principal Index Fund- Nifty (Open ended index scheme), Principal Government Securities Fund (Open ended dedicated Government Securities scheme investing in government securities), Principal Debt Savings Fund (Open ended income fund), Principal Debt Opportunities Fund (Open ended debt scheme), Principal Dividend Yield Fund (Open ended equity scheme), Principal Global Opportunities Fund (Open ended fund of funds scheme) Principal Large Cap Fund (Open - ended equity scheme), Principal Bank CD Fund (Open ended debt scheme), Principal Retail Money Manager Fund (Open ended debt scheme), , Principal Emerging Bluechip Fund (Open ended equity scheme) and Principal Smart Equity Fund (Open ended equity scheme) launched by Principal Mutual Fund have been included as a part of Future Goal Series.

ASSET ALLOCATION - THE CONCEPT EXPLAINED

The investor has an option to invest in two or more of the eligible Scheme(s) under the Asset Allocation Programme to allocate his investment across

different asset classes at the time of investment. The allocation would differ for different investor classes at different stages of their lifecycle – for example a young investor may typically invest more in higher return – higher risk assets like equities. Each investment type has a different level of risk and potential return associated with it. One way of reducing risk over short periods of time is to spread/allocate the investment into different investment types i.e. asset allocation between different asset classes i.e. different scheme(s).

Different investment types tend to experience good performance at different times. By not having all the investment in one asset class, a unit holder can offset the higher returns expected in one investment to offset any poor performance that may occur from another asset class. A diversified programme such as The Future Goals Asset Allocation Programme attempts to overcome the inherent volatility of any particular investment types and will typically enable the unit holder to invest across equity, fixed income products and short-term money market/cash products.

Asset Allocation takes diversification one step further. It seeks to find what proportions of equity and debt investments would provide optimum return for a certain level of risk. While asset allocation cannot guarantee a profit, it is a way for most unitholders to increase potential returns and reduce risk.

The asset allocation programme works on the following principles:

- Allocation of investment to different asset classes by the unit holder at the time of investment
- Rebalancing the portfolio at periodic intervals by the AMC to maintain the stated proportion in the same applicable ratio as stated by the unit holder at the time of original investment unless changed.

The rebalancing mechanism at periodic intervals would ensure that if there are changes in the market value of assets under a certain class causing the proportion of investment in that asset class to increase/decrease from the originally stated allocation, on the rebalancing date, the AMC would add/reduce assets in that class. Therefore, on all rebalancing dates, the asset proportion ratio would match those indicated by the unit holder at the time of original investment.

Example:

The concept of asset allocation is further clarified through an illustrative example. Investor A invests Rs. 1,00,000 in the following proportion on January 1, 2013 and the reallocation date is on a half yearly basis:

January 1, 2013

	Proportion	NAV per unit	No. of units	Amount (Rs.)
Growth Fund	50%	10	5000	50000
Income Fund	30%	10	3000	30000
Balanced	10%	10	1000	10000
MIP Fund	10%	10	1000	10000
Total	100%		10000	100000

In the period between the date of which the investment is made and the date of

rebalancing i.e. June 30, 2013, the markets react and the values of the Investment of Investor A are valued as follows:

Reallocation date (before reallocation)

	Proportion	NAV per unit	No. of units	Amount (Rs.)
Growth Fund	57%	15	5000	75000
Income Fund	27%	12	3000	36000
Balanced	8%	11	1000	11000
MIP	8%	11	1000	11000
Total	100%		10000	133000

The unit holder's assets will then be rebalanced i.e. assets in some scheme(s) will be bought by the sales proceeds of other scheme(s) by way of inter scheme switch, to bring the total investment of the unit holder back to the originally nominated ratio:

Reallocation date (after reallocation)

	Proportion	NAV per unit	No. of units	Amount (Rs.)
Growth Fund	50%	15	4434	66502
Income Fund	30%	12	3325	39900
Balanced	10%	11	1209	13299
MIP	10%	11	1209	13299
Total	100%		10000	133000

*Units rounded off to whole numbers

The features of Future Goals - Asset Allocation Programme are as explained below:

Minimum Number Of Schemes In Which The Unitholder Must Invest

Under the asset allocation programme, a unitholder must invest in and remain invested in at least two Scheme(s) At the discretion of the AMC it may introduce further schemes into the Future Goals - Asset Allocation Programme at a later date or may increase the minimum number of scheme(s) that the unitholder should invest in.

Investment Ratio

The unitholder must at the time of investment indicate the investment ratio that he/she wishes to opt for. This would mean that the unitholder must mark the percentage of the total investment that he/she would like to invest in each of the Scheme(s).

Example:

Mr. X, age 45 is an unitholder who wishes to have a regular income stream but also some possible upside. His choice may be as below:

Growth	Income	Balanced	MIP	Total
25%	50%	15%	10%	100%

Ms. Y, age 30 is a unitholder who is willing to take a larger risk but would like to have a high return that is also tax efficient. Her choice may be as follows:

Growth	Income	Balanced	MIP	Total
60%	8%	30%	2%	100%

Every unitholder must at the time of investment provide details about the investment ratio that he/she wishes to follow.

At any time (subject to 4 times in a Calendar year) during the investment period as stated in the “switching clause” the unitholder may change / alter the investment ratio keeping the total at 100%. The unitholder may switch or simply instruct the new scheme wise percentage to the AMC for altering the investment ratio. The Investment Manager would also be designing model portfolios representing different Scheme(s) of the Fund, containing debt and equity, and therefore the models would vary in their degree of return potential. The unitholder may select a model that matches his risk tolerance with his need for the income and growth potential. The unitholder must send any change in investment ratio duly signed in writing to the Fund. It will be the endeavour of the AMC to process the change in investment ratio as soon as possible. The maximum time that the AMC will take (under normal circumstances) to change the investment ratio of the unitholder is 3 Business Days.

Minimum Investment Amount

The minimum investment amount for participating in the Future Goals - Asset Allocation Programme is Rs.10,000/- and in multiples of Rs.1/- with subsequent investment of Rs. 1000/- and in multiples of Rs.1/- thereafter. The minimum initial investment requirement for each Scheme would be waived. The AMC reserves the right to reduce or increase this amount at any time or for any group of investors.

Switching And Loads

The unitholder is allowed **four switches** (or as may be decided by the AMC) per calendar year between the various Schemes under the Future Goals - Asset Allocation Programme or between various plans within the same Schemes of the programme so as to enable him change the investment ratio i.e. the asset proportion ratio. The exit load payable on switch/leaving Scheme (a) will be waived unless the unitholder chooses to withdraw his investment from a minimum of two or more Schemes or otherwise under/from the Programme of the Fund. Any switch would thus have the effect of changing the investment ratio.

Initial / Additional Sales

The unitholder can at any time subscribe to the units of the Scheme(s) under the programme either for the first time or otherwise. If the subscription in Future Goal Series programme is subsequent to the initial investment in the same, then the unit holder has to specify the investment ratio (between two or more Scheme(s) or for a particular Scheme) The subscription would be at applicable NAV based price. If no investment ratio is stated then, the original asset ratio would be used. Any subscription would thus have the effect of changing the investment ratio till the time Automatic Re-balancing is done at the original asset proportion ratio.

Repurchase And Load

The unitholder can at any time seek repurchase / redemption of units of the Scheme(s) under the program either in full or in part for a particular Scheme or Scheme(s). The unitholder can also seek repurchase / redemption of that quantity/amount so as to maintain the same investment ratio. The redemption would be at applicable NAV based price (with applicable loads). Any repurchase would thus have the effect of changing the investment ratio till the time Automatic Re-balancing is done at the original asset ratio. Systematic withdrawals can be set up on a monthly, quarterly, semi annually or annual basis. Withdrawals are drawn from the portfolio in percentages which equate to the percentage of each Scheme held in the portfolio, unless requested otherwise.

Automatic Re-balancing

Based on the conditions and performance of different Scheme(s) in which the Unitholder has invested and also if he has done any fresh subscription and /or redemption, the proportion/percentage of his investment in different Scheme(s) may change between two dates leading to Automatic Re-balancing at the half yearly intervals.

The AMC would at the end of each calendar half year, i.e., on June 30 and December 31 (immediate next business day in case these days are holidays) of each year or any other date as may be deemed fit and necessary by the AMC for the benefit of unitholders taking into account the market conditions, etc., automatically re-balance the investments of the unitholder in the proportion as stated by the unitholder at the time of original investment, unless changed (maximum upto 4 times in a calendar year) by the unitholder in writing. In alternative to the above, at the choice of the unitholder, rebalancing can be done at prefixed intervals i.e. quarterly, semiannually, annually or by request or any such period as the AMC may permit on specific request of the unitholder. Besides the unitholder also has the option to select the date on which the re-balancing is desired. If no date is selected the regular re-balancing would then be done at a date which would fall after the interval selected from the date of allotment of units. For example, if the period selected by the unitholder is quarterly and his date of allotment is say October 31, 2012, then the re-balancing would be done (if no date is selected) after 90 days on the 91st day from October 31, 2012 i.e. January 29, 2013. If the period & date is not provided, automatic rebalancing will be completed on 30th day of June & 31st day of December, or the following business day if 30th June & 31st December is not a business day. The unitholder can also request no re-balancing of his investments. The re-balancing would be by way of switch between Schemes which may have tax consequences. Automatic Re-balancing assures that the risk/ return mix is within investor's comfort zone.

Rematerialisation of demat Units shall be processed within the thirty days or such other days as may be stipulated under SEBI Regulations from the date of receipt of such a request, provided it is complete and valid in all respects.</p>
Dividend	<p>The dividend warrants shall be dispatched to the unitholders within 30 days of the date of declaration of the dividend. Efforts are being made to directly credit the dividend to the Unitholders account.</p>
Dividend Policy	<p>In the interest of the Scheme and the unit holders, the AMC/Trustees may consider providing returns to the unit holders at appropriate times by way of periodic declaration of dividend under the Scheme after providing for all necessary recurring and other expenses. Distribution of dividend is subject to availability and adequacy of distributable surplus and approval of the Trustees. Quantum of dividend/units and the record date will be fixed by the Trustee and dividend so decided shall be paid, subject to availability of distributable surplus.</p> <p>Only those unit holders whose names appear in the register of unit holders as on the record date will be entitled for dividend . This date will be fixed by the AMC/Trustees appropriately.</p> <p>The dividend warrants and/or fresh Account Statement shall be dispatched / credited to the unit holders within 30 days or such stipulated period of the declaration of dividend. Redemption	<p>Repurchase/Redemption Procedure</p> <p>The units of the Scheme can be repurchased (sold back to the Fund) on any business day. The repurchase request can be made on Application Form/Common Transaction form or by using the relevant tear off section of the</p>

Transaction Slip that may be enclosed with the Account Statement, which should be submitted at any of the Official Point of Acceptance. Where the date of redemption is a holiday / non business day, the deemed date for such redemption will be the next business day.

In case the units are standing in the names of more than one unitholder, where mode of holding is specified as "jointly", repurchase requests will have to be signed by all the joint holders. However, in cases of holding specified as 'either/anyone or survivor', any one of the joint holders (in case of either/anyone or survivor) will have the power to make repurchase request. However, in all cases, the repurchase proceeds will be paid to the first named holder only.

In case a unitholder has subscribed to units on more than one Business Day, the units subscribed to prior in time (that is those units which have been held for the longest period of time), will be deemed to have been repurchased first, that is on a First -In -First-Out basis. However, an unitholder may request the Fund to repurchase units subscribed by him/her at different dates, by indicating the specific date of subscription of the units, which is offered for repurchase.

The repurchase request can be made by specifying the Rupee amount or by specifying the number of units to be repurchased. If a repurchase request is for both a specified Rupee amount and a specified number of units, the specified rupee amount will be considered the definitive request. If only the repurchase amount is specified by the unitholder, the AMC will divide the repurchase amount so specified by the applicable NAV based price to arrive at the number of units. The request for repurchase of units could also be in fractions, up to three decimal places.

If the number of Units held by the Investor as per the records maintained by AMC and/or the Registrar is less than the number of Units requested to be redeemed then, all the Units held by the Unit holder in such folio / Scheme / plan for which application for Redemption is made, shall be redeemed. Provided that, where redeem 'all' is specified in the request, all Unit holdings in that Scheme shall be redeemed.

The AMC reserves the right to change the same on a prospective basis subject to SEBI Regulations. Unitholders may also request for repurchase of their entire holding and close the account by indicating the same at the appropriate place in the Transaction Slip/Repurchase form.

In case if the date of redemption is a non business day, the deemed date will be the next business day

Repurchase Price

The repurchase price will be calculated using the following formula:

Repurchase Price = Applicable NAV*(1 – Exit Load, if any).

Example for calculation of Repurchase Price:

If the Applicable NAV is Rs. 11.25/- and a 1.00% exit load is charged the repurchase price will be calculated as follows:

Repurchase Price = Rs. 11.25 x (1-1.00% of Rs. 11.25)

= Rs. 11.25 – Rs. 0.1125

= Rs. 11.1375/- per unit

The repurchase price shall not be lower than 93% of the NAV.

The AMC reserves the right to modify the exit load or levy a different exit load for any individual(s) or group of investors. However, any such change in the load structure shall be only on a prospective basis. The unitholder is requested to confirm the applicable exit load at the time of investment from the AMC/ Official Point of Acceptance.

Repurchase by NRI's/FIIs

Repurchase of unit balances in the account of an NRI/FII will be subject to any procedures laid down by the RBI. Such repurchase proceeds will be paid by means of a rupee cheque payable to the designated NRE/ NRO account of the unit holder and subject to RBI procedures and approvals and subject to deduction of tax at source, as applicable. All bank charges in connection with such payment will have to be borne by the unit holder and/or the Scheme by way of ongoing expenses.

Payment of Repurchase Proceeds

The time limit set for dispatch of repurchase proceeds will be from the Business Day when the request is accepted at the Official Point of Acceptance. As per the SEBI Regulations, the Fund shall mail the repurchase proceeds within ten Business Days from the date of acceptance of valid request at any of the Official Point of Acceptance, in case of a repurchase request being sent by post.

In the event of failure to dispatch the repurchase or repurchase proceeds within the statutory period specified above as per the SEBI Regulations, the AMC shall be liable to pay interest to the unitholders at such rate (currently 15% per annum) as may be specified by SEBI for the period of such delay.

The payment of redemption proceeds and/or dividend amount may also be released through NEFT / RTGS facility in addition to other options available for releasing the payment.

Electronic Credit Clearing Services (ECS) Identified Banks

ECS is a facility offered by RBI for facilitating better customer service by direct credit of dividend or repurchase amount to a unitholder's bank account through electronic credit. This helps in avoiding loss of dividend or repurchase warrant in transit or fraudulent encashment. The Fund will endeavour to arrange such facility for payment of dividend/repurchase proceeds to the unitholders. However, this facility is optional for the unitholders. Repurchase proceeds may be released through the ECS facility to unitholders residing in any of the cities where such a facility is available. In order to avail the above facility, the unitholder will have to give a written request to the Registrar. If the unitholder has opted for the ECS facility his/her bank branch will directly credit the amount due to them in their account whenever the payment is through ECS. The Registrar will send a separate advice to the unitholder informing them of the direct credit. It may be noted that there is no commitment from the Fund that this facility will be made available to the unitholders for payment of dividend/repurchase proceeds. While the Fund will endeavour in arranging the facility it will be dependent on various factors including sufficient demand for the facility from unitholders at any centre, as required by the authorities. In places where such a facility is not available or if the facility is discontinued by the Fund for any reason the repurchase warrants will be mailed to the unitholder.

Unitholder's Bank Account Details

Unitholders are on a mandatory basis are required to mention their bank account details in their applications/ requests for redemption. Redemption Cheques and/or any other instruments will then be made out in favour of the Investor Name, Bank Name, Account Number, << >>” for crediting the respective unitholder's account so specified. In case of those investors who have not provided their bank account details at the time of investment or thereafter, the redemption applications are liable to be rejected. The AMC will not be responsible for any loss arising out of fraudulent encashment of cheques and delay/loss in transit

D. COMPUTATION OF NAV

The NAV of the Scheme for each option at any time shall be determined by dividing the net assets of the Scheme by the number of outstanding units on the valuation date.

NAV per unit = (Market / Fair Value of Securities + Accrued Income + Receivables + other assets - Accrued Expenses – payables-other liabilities)

No. of units outstanding of the Scheme / Option

The NAV will be calculated up to four decimals. The NAVs will be declared as of the close of every Business Day with 1 day time lag.

The computation of Net Asset Value, valuation of assets, computation of applicable Net Asset Value (related price) for repurchase, switch and their frequency of disclosure shall be based upon a formula in accordance with the Regulations and as amended from time to time including by way of Circulars, Press Releases, or Notifications issued by SEBI or the Government of India to regulate the activities and growth of Mutual Funds.

The dividend paid on units under the Dividend Option of the Fund shall be deducted in computing the NAV of the units under the Dividend Option, each time a dividend is declared and till it is distributed. Consequently, once the dividend is distributed, the NAV of the units will always remain lower than the NAV of the units under the Growth Option. The income earned and profits realized attributable to the units under the Growth Option shall remain invested and shall be deemed to have remained invested in the Growth Option (exclusive of the units under the Dividend Option) and would be reflected in the NAV of the units under the Growth Option. The valuation of the Scheme's assets and calculation of the Scheme's NAV shall be subject to audit on an annual basis and such regulations as may be prescribed by SEBI from time to time.

The NAV shall be calculated on all Business Days.
