	100% of the net assets of the Scheme. The Scheme has no intention to invest in Securitised Debt and reverse repos of Corporate Bonds and/or participate in Short Selling.
Investment Strategy	<p>The Scheme will follow an index-based investment strategy by investing in the constituents of the <i>Nifty Free Float Midcap 100 Index</i> in the same proportion as the Index.</p> <p>Units of the Scheme have been designed with the intention of tracking the movement of securities (from time to time) included in the <i>Nifty Free Float Midcap 100 Index</i>. The Scheme plans to do this by investing the corpus in the stocks that comprise the <i>Nifty Free Float Midcap 100 Index</i> in similar weights to the weightage given by the <i>Nifty Free Float Midcap 100 Index</i> so that the portfolio would appreciate or depreciate (subject to tracking errors) in more or less the same manner as the <i>Nifty Free Float Midcap 100 Index</i>.</p> <p>Subject to the requirements of cash flows to meet the recurring expenses and to service investors who decide to exit from the Scheme or for distribution of income, if any, to investors, it is proposed that the corpus of the Scheme will be invested in the <i>Nifty Free Float Midcap 100 Index</i> securities. It is also proposed that disinvestment will take place only when investors exit from the Scheme or when any security ceases to be included in the <i>Nifty Free Float Midcap 100 Index</i> or to meet the cash flow requirements.</p> <p>The primary objective of the <i>Nifty Free Float Midcap 100 Index</i> is to capture the movement of the midcap segment of the market. <i>Nifty Free Float Midcap 100 Index</i> is computed using free float market capitalisation weighted method w.e.f. February 26, 2010, wherein the level of the index reflects the total market value of all the stocks in the index relative to a particular base period. The method also takes into account constituent changes in the index and corporate actions such as stock splits, rights, etc without affecting the index value. The <i>Nifty Free Float Midcap 100 Index</i> has a base date of Jan 1, 2003 and a base value of 1000.</p>

II. INTRODUCTION

A. RISK FACTORS

Standard Risk Factors:

- Investment in Mutual Fund Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal.
- As the price / value / interest rates of the securities in which the Scheme invests fluctuates, the value of your investment in the Scheme may go up or down. As with any investment in stocks, shares and securities, the NAV of the Units under the Scheme can go up or down, depending on the factors and forces affecting the capital markets.
- Past performance of the Sponsor/AMC/Mutual Fund does not guarantee future performance of the Scheme.
- Principal Index Fund – Midcap is only the name of the Scheme and does not in any manner indicate either the quality of the Scheme or its future prospects and returns.
- The sponsor or any of its associates including co-settlor are not responsible or liable for any loss resulting from the operation of the Scheme beyond the initial contribution of Rs. 25 lakhs made towards setting up the Fund.
- The present Scheme is not guaranteed or assured return Scheme.

Specific Risk Factors:

Applicable to all schemes:-

Risk Associated with Investing in Equities and/or units of Equity Mutual Fund Scheme

- The value of Scheme's investments may be affected by factors affecting the Securities markets and price and volume volatility in the capital markets, interest rates, currency exchange rates, changes in law/policies of the Government, taxation laws and political, economic or other developments which may have an adverse bearing on individual securities, a specific sector or all sectors. Consequently, the NAV of the units of the Scheme may be affected.
- Equity & Equity related securities are volatile and prone to price fluctuations on a daily basis. The liquidity of investments made in the Scheme may be restricted by trading volumes and settlement periods. Settlement periods may be extended significantly by unforeseen circumstances. The inability of the Scheme to make intended securities purchases due to settlement problems could cause the Scheme to miss certain investment opportunities. Similarly, the inability to sell securities held in the Scheme's portfolio may result, at times, in potential losses to the Scheme, should there be a subsequent decline in the value of securities held in the Scheme's portfolio.
- The liquidity and valuation of the Scheme's investments due to the holdings of unlisted securities may be affected if they have to be sold prior to the target date of disinvestment.
- Securities which are not quoted on the stock exchanges are inherently illiquid in nature and carry a larger liquidity risk in comparison with securities that are listed on the exchanges or offer other exit options to the investors, including put options.
- The liquidity of the Scheme is inherently restricted by trading volumes in securities in which it invests.
- Investment decisions made by the Investment Manager may not always be profitable.

To the extent the underlying Mutual Fund Scheme invest in Equity and Equity related Instruments, the Schemes(s) which shall invest in Equity Mutual Fund Schemes (where the asset allocation pattern of the Scheme provides such investment) shall be affected by the afore mentioned risk factors. The Net Asset Value (NAV) of the units of the Scheme is likely to get effected on accounts of such risk factors. Any change in the investment policies or fundamental attributes of any underlying scheme is likely to affect the performance of the Scheme. Further, the liquidity of the Scheme's investments may be inherently restricted by the liquidity of the underlying schemes in which it has invested

Risk Associated with Investing in Debt and / or Money Market Instruments and/or units of Liquid/Money Market /Debt Mutual Fund Scheme-

Price-Risk or Interest-Rate Risk: Fixed income securities such as bonds, debentures and money market instruments run price-risk or interest-rate risk. Generally, when interest rates rise, prices of existing fixed income securities fall and when interest rates drop, such prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of interest rates.

Credit Risk: In simple terms this risk means that the issuer of a debenture/ bond or a money market instrument may default on interest payment or even in paying back the principal amount on maturity. Even where no default occurs, the price of a security may go down because the credit rating of an issuer goes down. It must, however, be noted that where the Scheme has invested in Government Securities, there is no credit risk to that extent.

Re-investment Risk: Investments in fixed income securities may carry re-investment risk as interest rates prevailing on the interest or maturity due dates may differ from the original coupon of the bond. Consequently, the proceeds may get invested at a lower rate.

Interest Rate Movement (Basis Risk): The changes in the prevailing rates of interest will likely affect the value of the Scheme's holdings until the next reset date and thus the value of the Schemes' Units will be affected. Increased rates of interest, which frequently accompany inflation and/ or a growing economy, are likely to have a negative effect on the value of the Units. The value of securities held by the Scheme generally will vary inversely with changes in prevailing interest rates. The fund could be exposed to the interest rate risk (i) to the extent of time gap in resetting of the benchmark rates, and (ii) to the extent the benchmark index fails to capture the interest rate movement.

Prepayments and Charge Offs Risk: In the event of prepayments, investors may be exposed to changes in tenor and yield. Also, any Charge Offs would result in the reduction in the tenor of the Pass Through Certificates (PTCs).

Spread Risk: In a floating rate security the coupon is expressed in terms of a spread or mark up over the benchmark rate. However depending upon the market conditions the spreads may move adversely or favourably leading to fluctuation in NAV.

To the extent the underlying Mutual Fund Scheme invest in Debt / Money Market Instruments, the Schemes shall be affected by the afore mentioned risk factors viz. Price Risk, Interest Rate Risk, Credit Risk, Reinvestment Risk, Interest Rate Movement Risk, Prepayment and Charge Offs Risk, Spread Risk etc. The Net Asset Value (NAV) of the units of the Scheme is likely to get effected on accounts of such risk factors. Any change in the investment policies or fundamental attributes of any underlying scheme is likely to affect the performance of the Scheme. Further, the liquidity of the Scheme's investments may be inherently restricted by the liquidity of the underlying schemes in which it has invested.

Risks associated with Investing in Derivatives

Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.

The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments. The AMC may use various derivative products, as permitted by SEBI and the RBI from time to time, in an attempt to optimize the value of the portfolio and enhance Unit holder's interest/value of the Scheme. As and when the Scheme trade in the derivatives market, there are risk factors and issues concerning the use of derivatives that investors should understand. Derivative products are specialized instruments that require investment techniques and risk analyses different from those associated with stocks and bonds. The use of a derivative requires an understanding not only of the underlying instrument but also of the derivative itself. Derivatives require the maintenance of adequate controls to monitor the transactions entered into,

the ability to assess the risk that a derivative adds to the portfolio and the ability to forecast price or interest rate movements correctly. There is a possibility that a loss may be sustained by the portfolio as a result of the failure of another party (usually referred to as the “counter party”) to comply with the terms of the derivatives contract. The Scheme bears a risk that it may not be able to correctly forecast future market trends or the value of assets, indices or other financial or economic factors in establishing derivative positions for the Scheme. Other risks in using derivatives include the risk of mispricing or improper valuation of derivatives and the inability of derivatives to correlate in line with underlying assets, rates and indices.

Also, the market for derivative instruments is relatively nascent in India and does not have the volumes which may be seen in other developed markets, which may result in volatility to the values. Derivatives require the maintenance of adequate controls to monitor the transactions and the embedded market risks that a derivative adds to the portfolio. Besides the price of the underlying asset, the volatility, tenor and interest rates affect the pricing of derivatives.

Other risks in using derivatives include but are not limited to:

(a) **Credit Risk** – this occurs when a counterparty defaults on a transaction before settlement and therefore, the Scheme is compelled to negotiate with another counter party, at the then prevailing (possibly unfavorable) market price, in order to maintain the validity of the hedge. For exchange traded derivatives, the risk is mitigated as the exchange provides a guaranteed settlement but one takes the performance risk on the exchange.

(b) **Market Liquidity risk** – this occurs where the derivatives cannot be sold (unwound) at prices that reflect the underlying assets, rates and indices.

(c) **Model Risk** - the risk of mis-pricing or improper valuation of derivatives.

d) **Basis Risk** – this risk arises when the instrument used as a hedge does not match the movement in the instrument/ underlying asset being hedged. The risks may be inter-related also; for e.g. interest rate movements can affect equity prices, which could influence specific issuer/industry assets.

Trading in derivatives carry a high degree of risk although they are traded at a relatively small amount of margin which provides the possibility of great profit or loss in comparison with the principal investment amount. The Scheme may find it difficult or impossible to execute derivative transactions in certain circumstances. For example, when there are insufficient bids or suspension of trading due to price limit or circuit breakers, the Scheme may face a liquidity issue.

Interest Rate Swaps (IRS) are highly specialized instruments that require investment technique and risk analysis different from those associated with equity shares and other traditional securities. The use of a IRS requires not only an understanding of the referenced asset, reference rate, or index but also of the swap itself, without the benefit of observing the performance of the swap under all possible market conditions. Swap agreements are also subject to liquidity risk, which exists when a particular swap is difficult to purchase or sell. Swap agreements may be subject to pricing risk, which exists when a particular swap becomes extraordinarily expensive (or cheap) relative to historical prices or the prices of corresponding cash market instruments. IRS agreements are also subject to counterparty risk on account of insolvency or bankruptcy or failure of the counterparty to make required payments or otherwise comply with the terms of the agreement

Risks associated Securities Lending –

- **Securities Lending :**

It may be noted that Securities Lending activity would have the inherent probability of collateral value drastically falling in times of strong downward market trends or due to it being comprised of tainted/forged securities, resulting in inadequate value of collateral until such time as that diminution in value is replenished by additional security. It is also possible that the borrowing party and /or the approved intermediary may suddenly suffer severe business setback and become unable to honor its commitments. This along with a simultaneous fall in value of collateral would render potential loss to the Scheme. Besides, there can also be temporary illiquidity of the securities that are lent out and the Scheme may not be able to sell such lent out securities.

Risk factors specific to Principal Index Fund - Midcap

Principal Index Fund – Midcap

Risks associated with Investing in the constituents of Nifty Free Float Midcap 100 Index:

Mid cap stocks can be riskier and more volatile on a relative basis. Therefore, the risk levels of investing in small cap and mid cap stocks is more than investing in stocks of large well established companies. Over a time these two categories have demonstrated different levels of volatility and investment returns. Historically, these companies have been more volatile in price than larger company securities, especially over the short-term.

Investments under the Scheme will be concentrated in the Mid Cap segment and hence may perform differently than a broad market portfolio.

The value of the equity securities owned by the Scheme changes on a daily basis. Equity Securities, prices reflect the activities of individual companies and general market / economic conditions. In the short term, equity security prices can fluctuate dramatically in response to these factors. The investments under the Scheme will be concentrated in the Mid Cap segment and hence may perform differently than a broad market portfolio. Mid Cap stocks generally tend to be more volatile and less liquid as compared to Large Cap stocks.

Tracking Error:

“Tracking Error” is defined as the standard deviation of the difference between daily returns of the underlying index and the NAV of the respective scheme.

The Tracking error may arise due to various reasons and has an impact on the performance of the Scheme. The Scheme’s returns may therefore deviate from those of its underlying index due to the reasons mentioned below or other reasons that may arise and particularly when the markets are very volatile. Tracking error may arise from a variety of factors including but not limited to:

The Nifty Free Float Midcap 100 Index reflects the prices of securities at close of business hours. However the Scheme may buy or off-load securities at different points of time during the trading session at the then prevailing prices which may not correspond to the closing prices on the NSE.

IISL undertakes a periodical review of the scrips that comprise the Nifty Free Float Midcap 100 Index and may either drop or include new securities. In such an event the Scheme will endeavour to reallocate its portfolio but the available investment opportunities may not permit precise mirroring of the Nifty Free Float Midcap 100 Index.

Dis-investments to meet exits of investors, recurring expenses, etc. as elsewhere indicated in the Scheme Information Document.

Any delay experienced in the purchase or sale of shares due to illiquidity of the market, settlement and realisation of sale proceeds and / or the registration of any securities transferred and / or any delays in receiving cash dividends and resulting delays in reinvesting them.

The potential for trades to fail, which may result the Scheme not having acquired shares at a price necessary to track the index.

The holding of a cash position and accrued income prior to distribution and accrued expenses.

It will be the endeavor of the fund manager to keep the tracking error as low as possible. Under normal circumstances, such tracking error is not expected to exceed 2% per annum. However, in case of events like, dividend received from underlying securities, rights issue from underlying securities, and market volatility during rebalancing of the portfolio following the rebalancing of the underlying index, etc. or in abnormal market circumstances, the tracking error may exceed the above limits. There can be no assurance or guarantee that the Scheme will achieve any particular level of tracking error relative to performance of the Index.

As with all Mutual Funds, the value of the Scheme’s assets under this option may rise or fall. If units are redeemed when their value is less than the price paid for, money may be lost by the Unitholder.

An investor, by subscribing or purchasing an interest in the Product(s), will be regarded as having acknowledged, understood and accepted the disclaimer referred to in Clauses above and will be bound by it.

RISK CONTROL

Since investing requires disciplined risk management, the AMC has incorporated adequate safeguards for controlling risks in the portfolio construction process. The risk control process involves reducing risks through portfolio diversification, taking care however not to dilute returns in the process. The AMC believes that this diversification would help achieve the desired level of consistency in returns. The AMC may also implement certain internal control procedures / risk & exposure limits etc., which may be varied from time to time.

The AMC aims to identify securities, which offer superior levels of yield at lower levels of risks. With the aim of controlling risks, rigorous in-depth credit evaluation of the securities proposed to be invested in, is carried out by the investment team of the AMC.

The Scheme may also use various derivatives and hedging products from time to time, as would be available and permitted by SEBI/RBI, in an attempt to protect the value of the portfolio and enhance Unitholders' interest.

B. REQUIREMENT OF MINIMUM INVESTORS IN THE SCHEME

The Scheme shall have a minimum of 20 investors and no single investor shall account for more than 25% of the corpus of the Scheme. However, if such limit is breached during the NFO of the Scheme, the Fund will endeavour to ensure that within a period of three months or the end of the succeeding calendar quarter from the close of the NFO of the Scheme, whichever is earlier, the Scheme complies with these two conditions. In case the Scheme does not have a minimum of 20 investors in the stipulated period, the provisions of Regulation 39(2)(c) of the SEBI (MF) Regulations would become applicable automatically without any reference from SEBI and accordingly the Scheme shall be wound up and the units would be redeemed at applicable NAV. The two conditions mentioned above shall also be complied within each subsequent calendar quarter thereafter, on an average basis, as specified by SEBI. If there is a breach of the 25% limit by any investor over the quarter, a rebalancing period of one month would be allowed and thereafter the investor who is in breach of the rule shall be given 15 days' notice to redeem his exposure over the 25 % limit. Failure on the part of the said investor to redeem his exposure over the 25 % limit within the

aforesaid 15 days would lead to automatic redemption by the Mutual Fund at the applicable Net Asset Value on the 15th day of the notice period. The Fund shall adhere to the requirements prescribed by SEBI from time to time in this regard.

C. SPECIAL CONSIDERATIONS

Investment in the Scheme should be viewed by an investor/unit holder as a medium to long term investment as mutual funds carry normal market risks and there can be no assurance and no guarantee that the Scheme will achieve its objective. It is recommended that an investment in the Scheme should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all, as investment decisions made by the AMC will not always be profitable or prove to be correct. As with any investment in stocks, shares and securities, the NAV of the Units under the Scheme can go up or down, depending on the factors and forces affecting the capital markets. Past performance of the Scheme of Principal Mutual Fund, the Sponsor or its Group affiliates is not indicative of and does not guarantee the future performance of the Scheme. The name of the Scheme does not in any manner indicate the quality of the Scheme, its future prospects or the returns. The Scheme is not intended as a complete investment program. Investors, therefore, are urged to study the terms of this offer carefully and consult their Investment Advisor before they invest in the Scheme. Investors'/unit holders' attention is drawn to the risk factors set out in the beginning of this Scheme Information Document and also to the following specific risks as applicable to the Scheme where the asset allocation permits such investment:

Regulatory Risks: Neither this SID nor the Units have been registered in any jurisdiction. The distribution of this SID in certain jurisdictions may be restricted or subject to registration requirements and, accordingly, persons who come into possession of this SID are required to inform themselves about, and to observe, any such restrictions. No person receiving a copy of this SID or any accompanying application form in such jurisdiction may treat this SID or such application form as constituting an invitation to them to subscribe for Units, nor should they in any event use any such application form, unless in the relevant jurisdiction such an invitation could lawfully be made to them and such application form could lawfully be used without compliance with any registration or other legal requirements. Accordingly, this SID does not constitute an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not lawful or in which the person making such offer or solicitation is not qualified to do so or to anyone to whom it is unlawful to make such offer or solicitation. It is the responsibility of any persons in possession of this SID and any persons wishing to apply for Units pursuant to this SID to inform themselves of and to observe, all applicable laws and Regulations of such relevant jurisdiction.

Performance Risk: The value of (and income from) an investment in the Scheme can decrease as well as increase, depending on a variety of factors, which may affect the values and income generated by a Scheme's portfolio of securities. The returns of a Scheme's investments are based on the current yields of the securities, which may be affected generally by factors affecting capital markets such as price and volume, volatility in the stock markets, interest rates, currency exchange rates, changes in government and Reserve Bank of India policy, taxation, political, economic or other developments and closure of the stock exchanges. Investors should understand that the investment composition indicated for the Scheme, in line with prevailing market conditions, is only a hypothetical example as all

investments involve risk and there can be no assurance that the Scheme's investment objective will be attained nor will the Scheme be in a position to maintain the model percentage of investment pattern/composition particularly under exceptional circumstances such that the interest of the unit holders are protected.

The AMC will endeavor to invest in highly researched growth companies, however the growth associated with equities is generally high as also the erosion in the value of the investments/portfolio in the case of the capital markets passing through a bearish phase is a distinct possibility. Changes in the prevailing rates of interest are likely to affect the value of the Scheme investments and thus the value of the Scheme's Units. The value of money market/debt instruments held by the Scheme generally will vary inversely with the changes in prevailing interest rates. The AMC, while investing in fixed income instruments like debt, etc., shall consider and evaluate the risk of an issuer's ability to meet principal and interest payments (credit risk) and also the price volatility due to such factors as interest sensitivity, market perception or the creditworthiness of the issuer and general market liquidity (market risk). While it is the intent of the AMC to invest primarily in more highly rated debt securities and highly researched growth companies, the Scheme may from time to time invest in high yielding/growth, lower rated and/or privately placed/unlisted/securitised securities. Lower rated or unrated securities are more likely to react to developments affecting market and credit risk than highly rated securities. The credit risk factors pertaining to lower rated securities also apply to lower rated zero coupon, deferred interest bonds.

Techniques Risk: The Scheme may use techniques (including derivatives, futures and options, warrants, etc.) and instruments that may be permitted and/or that may become permissible under SEBI/RBI Regulations and/or Regulations and/or statutory modification or re-enactment thereof for efficient portfolio management and to attempt to hedge or reduce the risk of such fluctuation. However, these techniques and instruments, if imperfectly used, have the risk of the scheme incurring losses due to mismatches particularly in a volatile market. The Fund's ability to use these techniques may be limited by market conditions, regulatory limits and tax considerations (if any). The use of these techniques is dependent on the ability to predict movements in the prices of securities being hedged and movements in interest rates. There exists an imperfect correlation between the hedging instruments and the securities or market sectors being hedged. Besides, the fact that skills needed to use these instruments are different from those needed to select the Fund's/Scheme's securities. There is a possible absence of a liquid market for any particular instrument at any particular time even though the futures and options may be bought and sold on an organized stock exchange. The use of these techniques involves possible impediments to effective portfolio management or the ability to meet repurchase/redemption requests or other short-term obligations because of the percentage of the Scheme's assets segregated to cover its obligations.

Political Risk: Whereas the Indian market was formerly restrictive, a process of deregulation has been taking place over recent years. This process has involved the removal of trade barriers and other protectionist measures, which could adversely affect the value of investments. It is possible that future changes in the Indian political situation, including political, social, or economic instability, diplomatic developments and changes in laws or regulations could have an effect on the value of investments. Expropriation, confiscatory taxation, or other relevant developments could also affect the value of investments.

Forex Risk: The Scheme may also invest in overseas financial assets in accordance with the guidelines issued by the concerned regulatory authorities in India. To the extent that the assets of the Scheme will be invested in securities denominated in foreign currencies, the Indian Rupee equivalent of the net assets, distribution and income may be adversely affected by changes in the value of respective foreign currencies relative to the Indian rupee. The repatriation of capital to India may also be hampered by changes in regulations concerning exchange controls or political circumstances as well as the application to it or other restrictions on investment. In addition, country risks would include events such as introduction of extraordinary exchange controls, economic deterioration and bi-lateral conflict leading to immobilisation of the overseas financial assets.

Liquidity and Settlement Risks: The liquidity of the Scheme's investments may be inherently restricted by trading volumes, transfer procedures and settlement periods. From time to time, the Scheme will invest in certain securities of certain companies, industries, sectors etc. based on certain investment parameters as adopted internally by AMC. While at all times the Trustees and the AMC will endeavor that excessive holding/investment in certain securities of industries, sectors, etc. by the Scheme be avoided, the assets invested by the Scheme in certain securities of industries, sectors, etc. may acquire a substantial portion of the Scheme's investment portfolio and collectively may constitute a risk associated with non-diversification and thus could affect the value of investments. The Scheme may have difficulty in disposing of certain securities because the security may be unlisted, due to greater price fluctuations there may be a thin trading market, different settlement periods and transfer procedures for a particular security at any given

time. Settlement, if accomplished through physical delivery of stock certificates, is labour and paper intensive and may affect the liquidity. It should be noted that the Fund bears the risk of purchasing fraudulent or tainted papers. The secondary market for money market/debt securities does exist, but is generally not as liquid as the secondary market for other securities. Reduced liquidity in the secondary market may have an adverse impact on market price and the Scheme's ability to dispose of particular securities, when necessary, to meet the Scheme's liquidity needs or in response to a specific economic event, such as the deterioration in the creditworthiness of the issuer, etc. or during restructuring of the Scheme's investment portfolio. Furthermore, from time to time, the AMC, the Custodian, the Registrar, any Associate, any distributor, dealer, any company, corporate body, trust, any scheme/Mutual Fund managed by the AMC or by any other AMC may invest in the Scheme. While at all times the Trustees and the AMC will endeavor that excessive holding of Units in the Scheme among a few unit holders is avoided, however, the amounts invested by these aforesaid persons may acquire a substantial portion of the Scheme's outstanding Units and collectively may constitute a majority unit holder in the Scheme. Accordingly, redemption of Units held by such persons may have an adverse impact on the value of the redemption and may impact the ability of the unit holders to redeem their respective Units.

III. INFORMATION ABOUT THE SCHEME

A. TYPE OF THE SCHEME

An Open Ended Index Scheme.

B. WHAT IS THE INVESTMENT OBJECTIVE OF THE SCHEME?

To invest principally in securities that comprise Nifty Free Float Midcap 100 Index and subject to tracking errors endeavour to attain results commensurate with the Nifty Free Float Midcap 100 Index.

C. HOW WILL THE Scheme ALLOCATE ITS ASSETS?

Under normal circumstances, the asset allocation pattern of the Scheme would be as follows:-

Principal Index Fund- Midcap	Type of Instrument	Normal Allocation (% of Net Assets)		Risk Profile
		Minimum	Maximum	
	Nifty Free Float Midcap 100 Index Stocks	95	100	High
	Money Market Instruments with less than 1 year residual maturity(including reverse repos in government securities, as may be permitted by SEBI/RBI and units of liquid mutual fund schemes)	0	5	Low to Medium
	The Asset Management Company reserves the right to invest in derivatives up to 50% of the net assets of the Scheme.			
	Subject to the SEBI Regulations, the Mutual Fund may deploy upto 20% of its total net assets of the Scheme in Stock Lending.			
	The cumulative gross exposure through equity, debt and derivative positions shall not exceed 100% of the net assets of the Scheme. The Scheme has no intention to invest in Securitised Debt and reverse repos of Corporate Bonds and/or participate in Short Selling.			
	Subject to the SEBI Regulations, the asset allocation pattern indicated above may change from time to time, keeping in view market conditions, market opportunities, applicable regulations and political and economic factors. It must be clearly understood that the percentages stated above are only indicative and not absolute. These proportions can vary substantially depending upon the perception of the Fund Manager; the intention being at all times to seek to protect the interests of the Unitholders. The AMC may from time to time, for a short term, alter the asset composition on defensive consideration and may also invest the funds available in repos, bank deposits and/ or other scheme/s of the mutual funds in accordance with the provisions of SEBI (Mutual Funds) Regulations, 1996 and the circulars issued by SEBI from time to time. Such changes in the investment pattern will be for defensive considerations and the intention being at all times to seek to protect the interests of the Unit Holders. Such deviations shall be reviewed periodically and the Fund Manager shall do the rebalancing of the portfolio within 30 days from the date of the deviation to bring it in alignment with the asset allocation pattern as indicated above.			

Short-term surpluses/funds under the scheme pending deployment in terms of investment objective of the Scheme can be deployed in the inter-bank call/notice money market. In longer-term assets, sovereign bonds (government securities and treasury bills) which are the most liquid instruments dominate the market. Banks, Institutions, Primary Dealers and Mutual Funds are the dominant participants in this market. Other instruments available for investment are commercial papers, certificates of deposit, promissory notes, non-convertible debentures/floating rates bonds, securitised instruments etc. (subject to the asset allocation pattern of the Scheme. Various factors such as interest rate movement, fluctuation in the bond markets, political instability, changes in the economic environment, changes in the rating, changes in the tax laws and/or Regulations and/or RBI policies, changes in the liquidity conditions in the money market etc. affect the prices of debt instruments.

There is no assurance that the objective of the Scheme may be achieved. Subject to SEBI Regulations, the asset allocation pattern indicated above may change from time to time, keeping in view market conditions, market opportunities, applicable regulations and political and economic factors.

The AMC may from time to time, for a short term, alter the asset composition on defensive consideration and may also invest the funds available in repos, bank deposits and/ or other securities in accordance with the provisions of SEBI (Mutual Funds) Regulations, 1996 and the circulars issued by SEBI from time to time.

The percentages stated above are only indicative and not absolute. These proportions may vary substantially depending upon the perception of the AMC, the intention being at all times to seek to protect the NAV of the Scheme and interests of the Unit holders. Such changes in the investment pattern will be for short term and only for defensive considerations.

Any change in the investment composition of a Scheme and amounting to a change in the fundamental attributes of such Scheme will be in accordance with sub regulation 15A of regulation 18 of SEBI Regulations.

Overview of Debt & Money Market in India:

Indian debt markets have witnessed a rapid growth in last couple of years aided by increased government borrowing and initiatives by Reserve Bank of India to implement structural changes in the market place. The debt market is primarily divided into four segments - government securities market, corporate debt market, short-term placement market and derivatives market. While government securities market is highly liquid and accounts for almost 90% of daily market turnover, corporate debt and derivatives markets are developing rapidly. The volumes in the government securities market range between Rs. 10,000 to Rs. 15,000 crores. The main participants in debt market are banks, primary dealers, mutual funds, insurance companies, provident funds and corporates. The government securities are issued in the form of Treasury Bills (91 and 364 days) and long-term bonds. The corporate debt issuance is in the form of short-term commercial papers (upto 1yr) and short and long-term debentures. Of late, securitized asset issuance has gone up sharply with several financial intermediaries issuing asset-backed securities on their assets like commercial loans, personal loans, housing loans etc. The short-term placement market comprises call money, bank deposits and very short maturity corporate debentures. The kinds of risk associated with fixed-income investment are interest rate risk, credit risk and liquidity risk.

Following table exhibits various debt instruments along with recent indicative yields (as on May 30, 2016)

Instrument and Maturity Profile	Indicative	Liquidity Profile	Risk

STOCK LENDING BY THE MUTUAL FUND

Stock Lending means the lending of stock to another person or entity for a fixed period of time, at a negotiated compensation in order to enhance returns of the portfolio. The securities lent are to be returned by the borrower on the expiry of the stipulated period.

To augment revenue generation the Scheme, may lend the securities held by it to eligible brokers, dealers, financial institutions through approved intermediaries, in amounts up to 50% of its total net assets at the time of lending, in accordance with the terms of the Securities Lending Scheme announced by SEBI. The Fund may enter into an agreement with the approved intermediary for depositing the securities for the purpose of lending through the approved intermediary on satisfactory terms as to security.

The Scheme would limit its exposure, with regard to securities lending, for a single intermediary, other than the National Securities Clearing Corporation Ltd (NSCCL), to the extent of 10% of the total net assets of the Scheme at the time of lending. For NSCCL, such exposure limit would be up to 50% of the total net assets of the Scheme. Collateral must be obtained by the approved intermediary for the lending transactions and this collateral must exceed in value of the Securities lent. The collateral can be in the form of cash, bank guarantee, government securities, certificate of deposits or other securities as may be agreed upon with the approved intermediary. It should be noted that any default/delay by the parties to return the securities lent to them may have an adverse impact on the net assets (and consequently the performance) of the Scheme.

INVESTMENT PROCESS

There is separate team for investment in fixed income instruments & equities. The team works under the supervision of Chief Investment Officer (CIO). CIO is overall in charge for the Fund's investment.

The Investment Manager will carry out the daily investment activities within the framework of SEBI guidelines in accordance with the investment objective as per the Scheme Information Document. The Board of AMC and Trustee review the performance of the Scheme in comparison to corresponding schemes of other mutual funds with similar investment objective and asset profile generally. The performance of the Scheme is compared with benchmark.

Review by Board of AMC and Trustees

A detailed review of the schemes of the Fund including its performance vis-à-vis benchmark index, assets size, rankings/ratings received, if any is placed before the Board of Directors of AMC and to the Trustee on a quarterly basis.

D. WHERE WILL THE SCHEME INVEST?

PRINCIPAL INDEX FUND- MIDCAP

- Principal Index Fund- Midcap is structured as an Index linked open ended equity scheme with the objective to invest principally in securities of companies whose securities are included in Nifty Free Float Midcap 100 Index and subject to tracking errors aiming to attain results commensurate with the Index. This would be done by investing in all the stocks comprising the Nifty Free Float Midcap 100 Index in approximately the same weightage that they represent in the Index.
- The Scheme has been designed with the intention of tracking the movement of securities from time to time

included in the Index. The Scheme plans to do this by investing the corpus in the stocks that comprise the Index in similar weights to the weightage given by the Index so that the portfolio would appreciate or depreciate (subject to tracking errors) in more or less the same manner as the Index. Subject to the requirements of cash flows to meet the recurring expenses and to service investors who decide to exit from the Scheme or for distribution of income to investors, it is proposed that income (by way of dividend or otherwise) will be invested in the Nifty Free Float Midcap 100 Index securities. It is also proposed that disinvestment will take place only on investors exiting from the scheme or any security ceasing to be included in the Index or to meet the cash flow requirements.

- By tracking the Index to the extent possible under the prevailing circumstances and environment, objectives and features of the Scheme, the scheme expects to generate returns approximating the performance of the Nifty Free Float Midcap 100 Index.
- However, due to market conditions, the Scheme may invest beyond the range set out above. Such deviations shall normally be for a short term defensive considerations, and the intention being at all times to protect the interests of the Unit Holder.
- The Scheme may participate in securities lending as permitted under the Regulations.
- The Scheme may also invest in other schemes managed by the same AMC or by the AMC of any other mutual fund, within the limits specified under SEBI Regulations.
- The Scheme further reserves the right to invest in derivatives, as may be permitted by SEBI from time to time.

The securities may be acquired by the Scheme through Initial Public Offerings (IPOs), secondary market operations, private placement, right offers or negotiated deals. Securities shall be purchased in public offerings, primary/ reissues/ Open Market Operations (OMO) auctions / OMO sales, private placement, right offers, negotiated deals or any other mode of investment made available in the market from time to time.

The regulation and limits as applicable under the SEBI (Mutual Funds) Regulations, 1996 are specified under the Para of Investment Restrictions.

Depository

The Securities of the Scheme will be held in demat (electronic) mode and accordingly the rules of the Securities and Exchange Board of India (Depositories and Participants) Regulations, 1996 would apply. The service charges payable to the Depository Participant will form a part of the annual recurring expenses.

E. WHAT ARE THE INVESTMENT STRATEGIES?

The Scheme will follow an index-based investment strategy by investing in the constituents of the *Nifty Free Float Midcap 100 Index* in the same proportion as the Index.

Units of the Scheme have been designed with the intention of tracking the movement of securities (from time to time) included in the *Nifty Free Float Midcap 100 Index*. The Scheme plans to do this by investing the corpus in the stocks that comprise the *Nifty Free Float Midcap 100 Index* in similar weights to the weightage given by the *Nifty Free Float Midcap 100 Index* so that the portfolio would appreciate or depreciate (subject to tracking errors) in more or less the same manner as the *Nifty Free Float Midcap 100 Index*.

Subject to the requirements of cash flows to meet the recurring expenses and to service investors who decide to exit from the Scheme or for distribution of income, if any, to investors, it is proposed that the corpus of the Scheme will be invested in the *Nifty Free Float Midcap 100 Index*. It is also proposed that disinvestment will take place only when investors exit from the Scheme or when any security ceases to be included in the *Nifty Free Float Midcap 100 Index* or to meet the cash flow requirements.

The primary objective of the *Nifty Free Float Midcap 100 Index* is to capture the movement of the midcap segment of the market. *Nifty Free Float Midcap 100 Index* is computed using free float market capitalisation weighted method, wherein the level of the index reflects the total market value of all the stocks in the index relative to a particular base period. The method also takes into account constituent changes in the index and corporate actions such as stock splits, rights, etc without affecting the index value. The *Nifty Free Float Midcap 100 Index* has a base date of Jan 1, 2004 and a base value of 1000.

Trading in Derivatives

The Scheme may take derivatives position based on the opportunities available subject to the guidelines provided by SEBI from time to time and in line with the overall investment objective of the Scheme. SEBI has vide its Circulars inter alia, DNPd/Cir-29/2005 dated September 14, 2005 and DNPd/Cir-30/2006 dated January 20, 2006 and CIR/IMD/DF/11/2010 dated August 18, 2010, specified the guidelines pertaining to trading by Mutual Fund in Exchange traded derivatives and SEBI Circular DNPd/Cir-31/2006 dated September 22, 2006 modifying the position limits for Index derivative contracts.

A derivative is an instrument whose value is derived from the value of one or more of the underlying assets which can be commodities, precious metals, bonds, currency, etc. Common examples of Derivative instruments are Interest Rate Swaps, Forward Rate Agreements, Futures, Options, etc.

In case of equity derivatives, the Scheme may transact in exchange traded equity derivatives only and these instruments may take the form of Index Futures, Index Options, Futures and Options on individual equities/securities and such other derivative instruments as may be appropriate and permitted under the SEBI Regulations and guidelines from time to time.

Derivative positions taken would be guided by the following principles:

Exposure to Equity Derivatives

The net derivatives position in the Scheme may be up to the limit as set forth in the asset allocation pattern of the Scheme, subject to the following regulatory limits:

i. Position limit for the Mutual Fund in index options contracts:

- a.** The Mutual Fund position limit in all index options contracts on a particular underlying index shall be Rs. 500 crore or 15% of the total open interest in the market in index options, whichever is higher, per Stock Exchange.
- b.** This limit would be applicable on open positions in all options contracts on a particular underlying index.

ii. Position limit for the Mutual Fund in index futures contracts:

- a.** The Mutual Fund position limit in all index futures contracts on a particular underlying index shall be Rs. 500 crore or 15% of the total open interest in the market in index futures, whichever is higher, per Stock Exchange.
- b.** This limit would be applicable on open positions in all futures contracts on a particular underlying index.

iii. Additional position limit for hedging:

In addition to the position limits at point (i) and (ii) above, Fund may take exposure in equity index derivatives subject to the following limits:

- a.** Short positions in index derivatives (short futures and long puts) shall not exceed (in notional value) the Mutual Fund's holding of stocks.
- b.** Long positions in index derivatives (long futures and long calls) shall not exceed (in notional value) the Mutual Fund's holding of cash, government securities, T-Bills and similar instruments.

iv. Position limit for the Mutual Fund for stock based derivative contracts:

The Mutual Fund position limit in a derivative contract on a particular underlying stock, i.e. stock option contracts and stock futures contracts:

- a.** For stocks having applicable market-wise position limit (MWPL) of Rs. 500 crores or more, the combined futures and options position limit shall be 20% of applicable MWPL or Rs. 300 crores, whichever is lower and within which stock futures position cannot exceed 10% of applicable MWPL or Rs. 150 crores, whichever is lower.

b. For stocks having applicable market-wise position limit (MWPL) less than Rs. 500 crores, the combined futures and options position limit would be 20% of applicable MWPL and futures position cannot exceed 20% of applicable MWPL or Rs. 50 crore whichever is lower.

v. Position limit for the Scheme:

The position limits for the Scheme and disclosure requirements are as follows:

a. For stock option and stock futures contracts, the gross open position across all derivative contracts on a particular underlying stock of a scheme of a Fund shall not exceed the higher of :1% of free float market capitalization (in terms of number of shares).

Or

5% of the open interest in the derivative contracts on a particular underlying stock (in terms of number of contracts).

b. This position limit shall be applicable on the combined position in all derivative contracts on an underlying stock at a Stock Exchange.

c. For index based contracts, the Mutual Fund shall disclose the total open interest held by its scheme or all schemes put together in a particular underlying index, if such open interest equals to or exceeds 15% of the open interest of all derivative contracts on that underlying index.

As and when SEBI notifies amended limits in position limits for exchange traded derivative contracts in future, the aforesaid position limits, to the extent relevant, shall be read as if they were substituted with the SEBI amended limits.

The Scheme may purchase call and put options in securities in which it invests and on securities indices. Through the sale and purchase of futures contracts the Fund would seek to hedge against a decline in securities owned by the Fund or an increase in the prices of securities which the Fund plans to purchase. The Fund would sell futures contracts on securities indices in anticipation of a fall in stock prices, to offset a decline in the value of its equity portfolio. When this type of hedging is successful, the futures contract increase in value while the Fund's investment portfolio declines in value and thereby keep the Fund's net asset value from declining as much as it otherwise would. Similarly, when the Fund is not fully invested, and an increase in the price of equities is expected, the Fund would purchase futures contracts to gain rapid market exposure that may partially or entirely offset increase in the cost of the equity securities it intends to purchase. In certain cases the Fund might invest in futures contracts as against underlying cash stocks for reasons of liquidity and lower impact costs.

Stock and Index Futures

Hedging against an anticipated rise in equity prices:-

The scheme has a corpus of Rs. 100 crores and has cash of Rs. 15 crores available to invest. The Fund may buy index/stock futures of a value of Rs. 15 crores. The scheme may reduce the exposure to the future contract by taking an offsetting position as investments are made in the equities; the scheme wants to invest in. Here, if the market rises, the scheme gains by having invested in the index futures.

Hedging against anticipated fall in equity prices:-

If the Fund has a negative view on the market and would not like to sell stocks as the market might be weak, the scheme of the Fund can go short on index/stock futures. Later, the scheme can unwind the future positions. A short position in the future would offset the long position in the underlying stocks and this can curtail potential loss in the portfolio. The Fund's successful use of futures contracts is subject to the Fund Manager's ability to predict correctly the market factor affecting the market value of the Fund's portfolio securities. For example if a Fund is hedged against a fall in the securities using a short position in index futures, and the market instead rises, the Fund loses part or all of the benefit of the increase in securities prices on account of the offset losses in index futures. Imperfect co-relation between the price movements in the securities index on the one hand and the stocks held by the Fund or the futures contracts itself on the other hand may result in trading losses. The Fund may not be able to close an open futures position due to insufficient liquidity in the futures market. Under such circumstances, the Fund would be required to make daily cash payments of variation margin in the event of adverse price movements. If the Fund has insufficient cash, the Fund may be required to sell portfolio securities to meet daily variation margin requirement at a time when it may be disadvantageous to do so.

A hedge is designed to offset a loss on a portfolio with a gain in the hedge position. At the same time, however, a properly correlated hedge will result in a gain in the portfolio position being offset by a loss in the hedge position. As

a result the use of derivatives could limit any potential gain from an increase in value of the position hedged. In addition, an exposure to derivatives in excess of the hedging requirement can lead to losses.

Stock and Index Options:

Option contracts are of two types - Call and Put; the former being the right, but not obligation, to purchase a prescribed number of shares at a specified price before or on a specific expiration date and the latter being the right, but not obligation, to sell a prescribed number of shares at a specified price before or on a specific expiration date. The price at which the shares are contracted to be purchased or sold is called the strike price. Options that can be exercised on or before the expiration date are called American Options, while those that can be exercised only on the expiration date are called European Options. In India, all individual stock options are American Options, whereas all index options are European Options. Option contracts are designated by the type of option, name of the underlying, expiry month and the strike price.

Example for Options:

Buying a Call Option: Let us assume that the Fund buys a call option of XYZ Ltd. with strike price of Rs.1000/-, at a premium of Rs.25/-. If the market price of ABC Ltd on the expiration date is more than Rs.1000/-, the option will be exercised. The Fund will earn profits once the share price crosses Rs.1025/- (Strike Price + Premium i.e. 1000+25). Suppose the price of the stock is Rs.1100/-, the option will be exercised and the Fund will buy 1 share of XYZ Ltd. from the seller of the option at Rs.1000/- and sell it in the market at Rs.1100/-, making a profit of Rs.75/-. In another scenario, if on the expiration date the stock price falls below Rs.1000/-, say it touches Rs.900/-, the Fund will choose not to exercise the option. In this case the Fund loses the premium (Rs.25), which will be the profit earned by the seller of the call option.

Buying a Put Option: Let us assume the Fund owns the shares of XYZ Ltd, which is trading at Rs.500/-. The fund wishes to hedge this position in the short-term as it perceives some downside to the stock in the short-term. It can buy a Put Option at Rs.500 by paying a premium of say Rs.10/- In case the stock goes down to Rs.450/- the fund has protected its downside to only the premium i.e Rs.10/- instead of Rs.50/-. On the contrary if the stock moves up to say Rs.550/- the fund may let the Option expire and forego the premium thereby capturing Rs.40/- upside. The strategy is useful for downside protection at cost of foregoing some upside.

For an option buyer, loss is limited to the premium that he has paid and gains are unlimited. .

The above example is hypothetical in nature and all figures are assumed for the purpose of illustrating the use of call options in individual stocks. Similar analogy can be used for Index Options too when the fund wishes to hedge a part of the total portfolio or cash.

The following section describes some of the more common debt derivatives transactions along with their benefits:

Interest Rate Futures (IRF)

An interest rate futures contract is "an agreement to buy or sell a debt instrument at a specified future date at a price that is fixed today." Interest rate futures are derivative contracts which have a notional interest bearing security as the underlying instrument. The buyer of an interest rate futures contract agrees to take delivery of the underlying debt instruments when the contract expires and the seller of interest rate futures agrees to deliver the debt instrument.

The fund can effectively use interest rate futures to hedge from increase in interest rates

Interest Rate Swap (IRS)

An IRS is an agreement between two parties to exchange stated interest obligations for an agreed period in respect of a notional principal amount. The most common form is a fixed to floating rate swap where one party receives a fixed (pre-determined) rate of interest while other receives a floating (variable) rate of interest.

Forward Rate Agreement (FRA)

A FRA is basically a forward starting IRS. It is an agreement between two parties to pay or receive the difference between an agreed fixed rate (the FRA rate) and the interest rate (reference rate) prevailing on a stipulated future date,

based on a notional principal amount for an agreed period. The only cash flow is the difference between the FRA rate and the reference rate. As is the case with IRS, the notional amounts are not exchanged in FRAs.

Example

Let us assume that a scheme has an investment of Rs. 10 crore in an instrument which pays interest linked to NSE Mibor. Since the NSE Mibor would vary daily, the scheme is running an interest rate risk on its investment and would stand to lose if rates go down. To hedge itself against this risk, the scheme could do an IRS where it receives a fixed rate (assume 10%) for the next 5 days on the notional amount of Rs. 10 crore and pay a floating rate (NSE Mibor). In doing this, the scheme would effectively lock itself into a fixed rate of 10% for the next five days. The steps would be.

1. The scheme enters into an IRS on Rs. 10 crore from March 1, 2013 to March 6, 2013. It receives a fixed rate of interest at 10% and the counter party receives the floating rate (NSE Mibor). The Scheme and the counter party exchange a contract of having entered into this IRS.
2. On a daily basis, the NSE Mibor will be tracked by the counterparties to determine the floating rate payable by the scheme.
3. On March 6, 2013, the counterparty will calculate the following;
 - The scheme will receive interest on Rs. 10 crore at 10% p.a. for 5 days i.e. Rs. 1,36,986/-
 - The scheme will pay the compounded NSE Mibor for 5 days
 - Effectively, the scheme has earned interest at 10% p.a. for 5 days by converting its floating rate asset into a fixed rate through the IRS.

If the total interest on the compounded NSE Mibor rate is lower than Rs. 1,36,986/-, the scheme will receive the difference from the counterparty and vice-versa. In case the interest on compounded NSE Mibor is higher, the scheme would make a lower return than what it would have made had it not undertaken IRS.

Further, SEBI vide its circular no. Cir/ IMD/ DF/ 11/ 2010 dated August 18, 2010, has prescribed the following restrictions in respect of investment in derivatives:

- 1) The cumulative gross exposure through equity, debt and derivative positions shall not exceed 100% of the net assets of the Scheme.
- 2) The Scheme shall not write options or purchase instruments with embedded written options.
- 3) The total exposure related to option premium paid must not exceed 20% of the net assets of the Scheme.
- 4) Cash or cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure.
- 5) Exposure due to hedging positions may not be included in the above mentioned limits, subject the following:
 - (a) Hedging positions are the derivative positions that reduce possible losses on existing positions in securities and till the existing position remains.
 - (b) Hedging positions cannot be taken for existing derivative positions. Exposure due to such positions shall have to be added and treated under limits mentioned in Point 1.
 - (c) Any derivative instrument used to hedge has the same underlying security as the existing positions being hedged.
 - (d) The quantity of underlying associated with the derivative positions taken for hedging purposes does not exceed the quantity of the existing position against which hedge has been taken.
- 6) The Scheme may enter into plain vanilla interest rate swaps for hedging purposes. The counter party in such transactions has to be an entity recognized as a market maker by RBI. Further, the value of the notional principal in such cases must not exceed the value of respective existing assets being hedged by the scheme. Exposure to a single counterparty in such transactions should not exceed 10% of the net assets of the scheme.
- 7) Exposure due to derivative positions taken for hedging purposes in excess of the underlying positions against which the hedging position has been taken, shall be treated under the limits mentioned in Point 1.
- 8) Position taken in derivatives shall have an associated exposure as defined under. Exposure is the maximum possible loss that may occur on a position. However, certain derivative positions may theoretically have unlimited possible loss. Exposure in derivative positions shall be computed as follows: -

Position	Exposure
Long Future	Futures Price * Lot Size * Number of Contracts
Short Future	Futures Price * Lot Size * Number of Contracts
Option bought	Option premium Paid * Lot Size* Number of Contracts

Portfolio Turnover Rate

The Portfolio Turnover Rate (PTR) means the lower of aggregate sales or purchases made during a particular year/period divided by the Average Asset under Management (average of Assets under Management on last day of month) for the relevant year/period.

"Portfolio Turnover" is the term used by any Mutual Fund for measuring the amount of trading that occurs in a Scheme's portfolio during the year. The Scheme is an open-ended Scheme. It is expected that there may be a number of subscriptions and repurchases on a daily basis. Moreover, portfolio turnover in the Schemes will be a function of market opportunities. The economic environment changes on a continuous basis and exposes portfolio to systematic as well as non-systematic risk. Consequently, it is difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolio. However, a high turnover would significantly affect the brokerage and transaction costs. This will exclude the turnover caused on account of:

- Investing in the initial subscription,
- Subscriptions and redemptions undertaken by the unit holders.

The AMC will endeavor to balance the increased cost on account of higher portfolio turnover with the benefits derived therefrom. A high portfolio turnover rate is not necessarily a drag on portfolio performance and may be representative of arbitrage opportunities that exist for scrips/securities held in the portfolio rather than an indication of a change in AMC's view on a scrip, etc.

Portfolio Turnover Ratio of the Scheme as on April 30, 2016: 0.75

F. FUNDAMENTAL ATTRIBUTES

Following are the Fundamental Attributes of the Scheme, in terms of Regulation 18 (15A) of the SEBI (MF) Regulations:

I. WHAT ARE THE INVESTMENT RESTRICTIONS?

Following Investment limitations/restrictions are specific to these Schemes:-

- The Fund under all its Schemes should not own more than 10% of any company's paid up capital carrying voting rights.
- Transfers of investments from one scheme to another scheme of Principal Mutual Fund shall be allowed only if:
 - (a) Such transfers are done at the prevailing market price for quoted instruments on spot basis.
[Explanation - "Spot basis" shall have same meaning as specified by stock exchange for spot transactions.]
 - (b) The securities so transferred shall be in conformity with the investment objective of the scheme to which such transfer has been made.
- A scheme may invest in another scheme under the same asset management company or any other mutual fund without charging any fees, provided that aggregate interscheme investment made by all schemes under the same management or in schemes under the management of any other asset management company shall not exceed 5% of the net asset value of the mutual fund.
- The Mutual Fund shall buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relative securities and in all cases of sale, deliver the securities. Provided that the Scheme may engage in short selling of securities in accordance with the framework relating to short selling and securities lending and borrowing specified by SEBI. Provided further that the Scheme may also enter into derivatives transactions in a recognized stock exchange, subject to the framework specified by the Board. Provided further that sale of government security already contracted for purchase shall be permitted in accordance with the guidelines issued by the Reserve Bank of India in this regard.

- The Mutual Fund shall get the securities purchased or transferred in the name of the Mutual Fund on account of the concerned scheme, wherever investments are intended to be of long-term nature.
 - Pending deployment of Funds of the scheme in terms of investment objective, Mutual Fund may invest them in short term deposits of scheduled commercial banks, subject to the following:
 - The scheme shall not park more than 15% of the net assets in Short term deposit(s) of all the scheduled commercial banks put together. However, it may be raised to 20% with prior approval of the trustees. Also, parking of funds in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the mutual fund in short term deposits.
 - The scheme shall not park more than 10% of the net assets in short term deposit(s), with any one scheduled commercial bank including its subsidiaries.
 - No funds of the scheme may be parked in short term deposit of a bank which has invested in that scheme.
 - Short Term for such parking of fund by Mutual Fund shall be treated as a period not exceeding 91 days.
 - The Scheme shall not make any investment in:
 - any unlisted security of an associate or group company of the sponsor; or
 - any security issued by way of private placement by an associate or group company of the sponsor; or
 - the listed securities of group companies of the sponsor which is in excess of 25% of the net assets
 - The Scheme shall not invest in any Fund of Funds Scheme
 - The Scheme shall not invest more than 10% of its NAV in the equity shares or equity related instruments of any Company.
- Provided** that, the limit of 10 per cent shall not be applicable for investments in index fund or sector or industry specific scheme.
- The Scheme shall not invest more than 5% of its net assets in the unlisted equity shares or equity related instruments.
 - Aggregate value of “Illiquid Securities” of the Scheme, which are defined as non-traded, thinly traded and unlisted equity share, shall not exceed 15% of the total assets of the Scheme.

Where the Scheme may invest a part of its corpus in debt oriented and money market securities/instruments/funds, to manage its liquidity requirements, the investment restrictions specific to debt securities have been provided here below:-

- A mutual fund scheme shall not invest more than 10% of its NAV in debt instruments comprising money market instruments and non-money market instruments issued by a single issuer which are rated not below investment grade by a credit rating agency authorised to carry out such activity under the Act. Such investment limit may be extended to 12% of the NAV of the scheme with the prior approval of the Board of Trustees and the Board of directors of the asset management company:

Provided that such limit shall not be applicable for investments in Government Securities, treasury bills and collateralized borrowing and lending obligations:

Provided further that investment within such limit can be made in mortgaged backed securitised debt which are rated not below investment grade by a credit rating agency registered with the Board.

- The Scheme shall not invest more than 10% of its NAV in unrated debt instruments (of any residual maturity period) issued by a single issuer and the total investment in such instruments shall not exceed 25% of the NAV of the scheme. All such investments shall be made with the prior approval of the Board of Trustees and the Board of the AMC.

These investment limitations/parameters (as expressed/linked to the net asset/NAV/capital) shall in the ordinary course apply as of the date of the most recent transaction or commitment to invest, and changes do not have to be effected merely because, owing to appreciation or depreciation in value, or by reason of the receipt of any rights, bonuses or benefits in the nature of capital, or of any scheme of arrangement, or for amalgamation, reconstruction or exchange, or at any repayment or repurchase or other reason outside the control of the Fund, any such limits would thereby be breached. If these limits are exceeded for reasons beyond its control, the AMC shall adopt as a priority objective the remedying of that situation, taking due account of the interests of the unit holders.

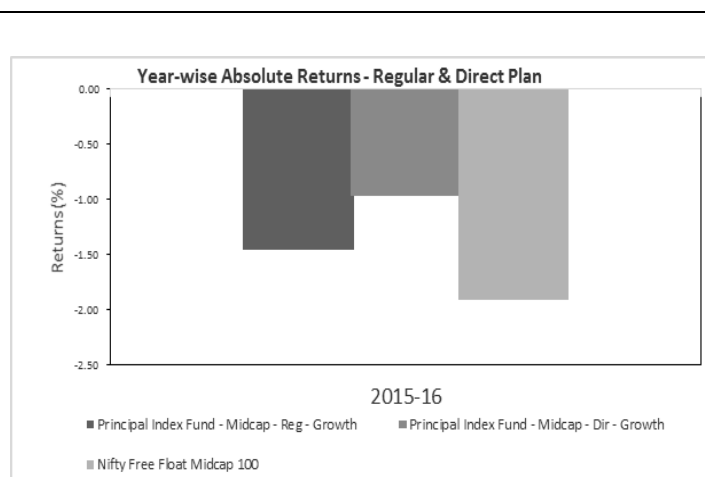

In addition, certain investment parameters (like limits on exposure to sectors, industries, issuers, etc.) may be adopted internally by the AMC, as amended from time to time, to ensure appropriate diversification/security for the Fund. The AMC may alter these above stated limitations from time to time, and also to the extent the SEBI Regulations change, so as to permit the Fund to make its investments in the full spectrum of permitted investments for Mutual Funds to achieve its investment objective. As such all investments of the Fund will be made in accordance with SEBI Regulations including Schedule VII thereof.

K. INVESTMENT BY AMC

The AMC and investment companies managed by the Sponsor, its affiliates, its associate companies and subsidiaries may invest either directly or indirectly in the Scheme. The money managed by these affiliates, associates, the Sponsor, subsidiaries of the Sponsor and/or the AMC may acquire a substantial portion of a Scheme's units and collectively constitute a major investment in a Scheme. Accordingly, repurchase of units held by such affiliates/associates and Sponsor may have an adverse impact on the units of a Scheme, because the timing of such repurchase may impact the ability of other unit holders to repurchase their units. The AMC reserves the right to invest its own funds in the Scheme as may be decided by the AMC from time to time and in accordance with SEBI Circular no. SEBI/IMD/CIR No. 10/22701/03 dated December 12, 2003 and SEBI/IMD/CIR No.1/42529/05 dated June 14, 2005 regarding minimum number of investors in the Scheme/ Plan. The AMC shall not charge any fees on investment by the AMC in the units of the Scheme.

--------------------	------------------------------------	--

Investment Objective	The primary objective of the scheme is to seek to generate long term capital appreciation with relatively lower volatility through systematic allocation of funds into equity; and in debt /money market instruments for defensive purposes. The Scheme will decide on allocation of funds into equity assets based on equity market Price Earnings Ratio (PE Ratio) levels. When the markets become expensive in terms of 'Price to Earnings' Ratio; the Scheme will reduce its allocation to equities and move assets into debt and/or money market instruments and vice versa.

	Investment in derivatives shall be upto 50% of the net assets of the Scheme.				

Investment Strategy	<p>The Scheme will decide on allocation of funds into equity assets based on equity market Price Earnings Ratio (PE Ratio) levels. The PE Ratio has traditionally been used as a tool to assess whether the equity markets are cheap or expensively priced. When the markets become expensive in terms of 'Price to Earnings' Ratio; the Scheme will reduce its allocation to equities and move assets into debt and/or money market instruments and vice versa. Such a strategy is expected to optimise the risk-return proposition for the long term investor.</p> <p>Under normal circumstances; the scheme's equity allocation may follow the following pattern based on Nifty 50 PE Ratio Level –</p> <table border="1"> <thead> <tr> <th>Weighted Average PE Ratio of Nifty 50</th><th>Equity Component (%)</th><th>Cash Futures Arbitrage/Debt Component (%)</th></tr> </thead> <tbody> <tr> <td>Upto 16</td><td>100</td><td>0</td></tr> <tr> <td>Above 16 – Upto 18</td><td>80 - 100</td><td>0 - 20</td></tr> <tr> <td>Above 18 – Upto 20</td><td>60 - 80</td><td>20 - 40</td></tr> <tr> <td>Above 20 – Upto 24</td><td>30 - 50</td><td>50 - 70</td></tr> <tr> <td>Above 24 – Upto 26</td><td>10-20</td><td>80 - 90</td></tr> <tr> <td>Above 26 – Upto 28</td><td>0 - 10</td><td>90 - 100</td></tr> <tr> <td>Above 28</td><td>0</td><td>100</td></tr> </tbody> </table> <p>For this purpose the month end PE Ratio of Nifty 50 Index (NSE Nifty) will be considered. Such a PE Ratio will be the month end weighted average PE Ratio of the constituent stocks making up the Nifty 50 Index. The undiluted earnings per share will reflect the trailing earnings of the most recent four quarters of each of the companies, for which information is available.</p> <p>This PE ratio will be rounded off to the nearest decimal. Scheme Name	Principal Arbitrage Fund			
Investment Objective	<p>The investment objective of the Scheme is to generate capital appreciation and income by predominantly investing in arbitrage opportunities in the cash and derivative segments of the equity markets and the arbitrage opportunities available within the derivative segment and by investing the balance in debt and money market instruments.</p> <p>There is no assurance or guarantee that the investment objective of the Scheme will be realized.</p>			
Asset Allocation Pattern	The indicative asset allocation will be as under:			
	Instruments	Minimum (%)	Maximum (%)	Risk Profile
	Equity and equity related instruments	65	90	Medium to High
	Equity derivatives	65	90	Medium to High
	Debt securities and Money Market Instruments# (including Margin for Derivatives) and Fixed Income Derivatives	10	35	Low
	# The Scheme may invest in Treasury Bills, Repos, Reverse Repos & Collateralized Borrowing and Lending Obligations ("CBLO") and units of Debt/Liquid and Money Market Mutual Fund Schemes.			
Investment Strategy	<p>The Scheme will endeavor to invest predominantly in arbitrage opportunities between spot and futures prices of exchange traded equities. In absence of profitable arbitrage opportunities available in the market, the scheme may predominantly invest in short-term debt and money market securities. The fund manager will evaluate the difference between the price of a stock in the futures market and in the spot market. If the price of a stock in the futures market is higher than in the spot market, after adjusting for costs and taxes the scheme shall buy the stock in the spot market and sell the same stock in equal quantity in the futures market, simultaneously. For example, on December 4, 2014, the scheme buys a share of XYZ Company on spot @ Rs. 1000 and at the same time sells XYZ Company futures for December 2014 expiry @ Rs. 1020. The Scheme thus enters into a fully hedged transaction by selling the equity position in the futures market for expiry on say December 25, 2014. If the scheme holds this position till expiry of the futures, the scheme earns profit of Rs. 20 on the date of expiry before accounting for trading costs and taxes.</p> <p>In case the scheme has to unwind the transaction prior to the expiry date on account of redemption pressures or any other reason, the returns would be a function of the spread at which the transaction is unwound. For example, if spot is sold at Rs. 980 and the futures are bought at Rs. 1010 then there would be negative returns on the trade. If the spot is sold at Rs. 1020 and the futures are bought at Rs.</p>			

	<p>1015 then there would be positive returns from the trade. On the date of expiry, if the price differential between the spot and futures position of the subsequent month maturity still remains attractive, the scheme may rollover the futures position and hold onto the position in the spot market. In case such an opportunity is not available, the scheme would liquidate the spot position and settle the futures position simultaneously. Rolling over of the futures transaction means unwinding the short position in the futures of the current month and simultaneously shorting futures of the subsequent month maturity while holding onto the spot position. There could also be occasions when both the spot and the future position is unwound before the expiry of the current-month future to increase the base return or to meet redemption. Return enhancement through the use of arbitrage opportunity would depend primarily on the availability of such opportunities. The Scheme will strive to build similar market neutral positions that offer an arbitrage potential for e.g. buying the basket of index constituents in the cash segment and selling the index futures. The Scheme would also look to avail of opportunities between one futures contract and another. For example on 16 December 2014, the scheme buys 1000 futures contracts of ABC Ltd. For December expiry at Rs.3000 each and sells an equivalent 1000 futures contract of ABC Ltd. for January expiry at Rs.3030. Thereby the scheme enters into a fully hedged transaction. Closer to the expiry date of the December contract, the scheme has two options. 1) Unwind the transaction by selling the 1000 December contracts and buying 1000 January contracts of ABC. The returns are a function of the spread between the sale price of the January contract and the buy price of the December contract. If this spread is less than Rs. 30, the returns are positive else the returns are negative. 2) On the expiry date i.e. 30 December, 2014, the scheme would let the December contract expire and square off 1000 contracts that it holds for January maturity. The returns would be a function of the spread between settlement price of the December contract and the price at which January contracts are squared-off. If this spread is lower than Rs. 30 then the returns are positive and if it is higher than Rs. 30 the returns are negative. The Scheme can also initiate the transaction in the opposite direction i.e. by selling the December futures and buying the January futures, if it sees a profit potential. Under all circumstances the scheme would keep its net exposures neutral to the underlying direction of the market by maintaining completely hedged positions. In addition to stock specific futures, the scheme can also take offsetting positions in index futures of different calendar month.</p> <p>The debt and money market instruments include any margin money that has to be maintained for the derivative position. The margin money could also be maintained partly as Fixed deposits with Scheduled commercial banks. The Scheme would invest in a range of fixed income and money market instruments including units of Debt/Liquid/Money Market Mutual Fund Schemes. Further the Scheme may also invest in financial derivatives such as options and futures & Interest Rate Swap (IRS) that are permitted or may become permissible under SEBI/RBI Regulations. The proportion of assets to be so invested would be decided by the AMC at the appropriate time, and would be done in accordance with the relevant guidelines to be issued by SEBI/RBI and other authorities.</p>

Ongoing price for redemption (sale) /switch outs (to other schemes/plans of the Mutual Fund) by investors. This is the price you will receive for redemptions/switch outs. <i>Example: If the applicable NAV is Rs10 exit load is 2% then redemption price will be: $Rs. 10 * (1 - 0.02) = Rs. 9.80$</i>	At the applicable NAV subject to prevailing exit loads.
Plans / Options offered	<u>Principal Index Fund – Midcap:-</u> The Scheme has two Plans i.e. Regular Plan & Direct Plan. Both the Plans, offer two Options viz. Dividend and Growth Option. Further, Dividend option will have the facility of Payout, Re-investment and Sweep.

The Investment Options (Regular and Direct Plan) will share a common portfolio.

Details of the Plans / Options is stated here below:-

Regular Plan:

Investors opting to invest through a Distributor shall be allotted units under the Regular Plan. Kindly ensure that a Distributor code is provided in the relevant space on the application form. In the absence of the Distributor Code, the application will be processed under the DIRECT Plan, by default.

Direct Plan:

“Direct Plan” is only for investors who purchase /subscribe Units in a Scheme directly with the Fund. This plan is not available for investors who wish to purchase/ subscribe units through a Distributor. All categories of investors (whether existing or new Unitholders) as permitted under the Scheme Information Document of the Scheme are eligible to subscribe under Direct Plan. Investments under Direct Plan can be made through various modes offered by the Mutual Fund for investing directly with the Mutual Fund [except through Stock Exchange Platforms for Mutual Funds and all other Platform(s) where investors’ applications for subscription of units are routed through Distributors].

Investors desirous of subscribing under Direct Plan of a Scheme will have to ensure to indicate “Direct Plan” against the Scheme name in the application form. Further, Investors should also indicate “Direct” in the ARN column of the application form.

Dividend Option:

Under Dividend Option, dividend will be declared subject to availability of distributable surplus and at the discretion of AMC/Trustee. The undistributed portion of the income will remain in the Option and be reflected in the NAV, on an ongoing basis. The Trustee decision with regard to availability and adequacy, rate, timing and frequency of distribution of dividend shall be final.

Further, the Dividend Option will have the facility of Re-investment, Payout and Sweep. Applicants should indicate the Option/Facility for which the subscription is made by indicating the choice in the appropriate box provided for this purpose in the Application Form. Applicants can allocate the investment in both the Options subject to a minimum investment amount of the Scheme.

Dividend option will have the facility of Payout, Re-investment and Sweep.

Dividend Payout Facility

Under this Facility, the unit holders would receive payout of their dividend.

Dividend Re-investment Facility

Under this Facility, dividend declared will be re-invested in the Scheme/Option itself, at applicable NAV based prices

Dividend Sweep Facility

	<p>Under this facility, the unit holders may reinvest their dividend in any other open ended scheme of the Fund at the applicable NAV based prices, subject to the minimum investment and eligibility requirements of the scheme in which the dividend is being invested. The appropriate number of units shall be credited to unit holder's account at the applicable NAV on the same date when the NAV is ex-dividend.</p> <p>Growth OptionUnder this option, the Mutual Fund will not declare any dividend. The income earned by the Schemes will remain invested in the Schemes concerned and will be reflected in the NAV. This Option is suitable for investors who are not looking for current income but who have invested only with the intention of capital appreciation-</p> <p>Default Option:</p> <p>Refer table below for understanding the result for various plans selected by the investor for applications –</p> <table><tr><th>Scenario</th><th>Broker Code mentioned by the investor</th><th>Plan mentioned by the investor</th><th>Default Plan to be captured</th></tr><tr><td>1</td><td>Not mentioned</td><td>Not mentioned</td><td>Direct Plan</td></tr><tr><td>2</td><td>Not mentioned</td><td>Direct</td><td>Direct Plan</td></tr><tr><td>3</td><td>Not mentioned</td><td>Regular</td><td>Direct Plan</td></tr><tr><td>4</td><td>Mentioned</td><td>Direct</td><td>Direct Plan</td></tr><tr><td>5</td><td>Direct</td><td>Not Mentioned</td><td>Direct Plan</td></tr><tr><td>6</td><td>Direct</td><td>Regular</td><td>Direct Plan</td></tr><tr><td>7</td><td>Mentioned</td><td>Regular</td><td>Regular Plan</td></tr><tr><td>8</td><td>Mentioned</td><td>Not Mentioned</td><td>Regular Plan</td></tr></table> <p>In cases of wrong/invalid/incomplete ARN codes mentioned on the application form, the application shall be processed under Regular plan. Tax deduction at source, if any, will be effected at the appropriate rate in case of a switch and the balance amount would be utilized to exchange units to the other Scheme.</p> <p>A request for switch may be specified either in terms of amount or in terms of the number of units of the scheme/plan/option from which the switch is sought. Such instructions may be provided in writing by completing the switch form or using the relevant tear off section of the Transaction Slip that may be enclosed with the Account Statement and lodging the same on any business day at any of the designated Official Points of Acceptance. The switch will be effected by redeeming units from the Scheme in which the units are held and investing the net proceeds in the other Scheme, subject to</p>

the minimum balance applicable for the respective Scheme.

2. Systematic Investment Plan

Systematic Investment Plan (SIP) is available for planned and regular investments. Under SIP, unit holders can benefit by investing specified rupee amounts periodically for a continuous period. This concept is called Rupee Cost Averaging. This program allows unit holders to save a fixed amount of rupees every month/quarterly by purchasing additional units of the Scheme.

Example

Let us take an example of a unit holder who invests Rs.3000/- per month

Month	NAV	Amount (Rs.)	Units
April 1	10.50	3000	285.71
May 1	10.65	3000	281.69
June 1	10.05	3000	298.50
July 1	9.75	3000	307.69
August 1	9.60	3000	312.50
September 1	9.50	3000	315.79
October 1	9.25	3000	324.32
November 1	9.05	3000	331.49
December 1	8.90	3000	337.08
January 1	8.75	3000	342.86
February 1	8.50	3000	352.94
March 1	8.80	3000	340.91
TOTAL		36000	3831.48

Note: The figures of NAV are hypothetical and are for illustrative purposes only.

At the end of one year the unitholder would have 3831.48 units, at an average per unit cost of Rs. 9.40.

Rupee Cost Averaging does not guarantee a profit nor protect against a loss. Rupee Cost Averaging can smooth out the market's ups and downs and reduce the risk of investing in volatile markets.

Features of the SIP

1. SIP Applications will be accepted on any working day of the month. Accordingly the units will be allotted on the date of receipt of valid SIP Application along with a SIP investment cheque dated not beyond the date of the Application. Thereafter the date for the first SIP installment shall be 1st, 5th, 15th or 25th of a particular month ("specified dates for SIP investments") as selected by the Investor OR the nearest date amongst the Specified Date subsequent to receipt of the application, as the case may be after completing a minimum time gap of 30 days from the date of the first SIP investment cheque. E.g. If a duly completed SIP enrolment is received within the applicable cut-off timings on January 27, 2013 along with a valid cheque dated not beyond January 27, 2013, for a SIP investment of Rs.2,000- per month (together with 5 or more post dated cheques each for a minimum of Rs. 2,000/-), units will be allotted on January 27, 2013 with the scheme applicable NAV, and the next SIP date [first SIP Installment date] will be March 1, 2013 or immediately following business day if March 1, 2013 is a non-business day OR such other date amongst the Specified Dates as per the application form.

2. Investors, who wish to opt for ECS (debit clearing) facility available with select banks, should ensure that there is a minimum time gap of 30 days between the first cheque for SIP enrolment and first installment of SIP through ECS or Direct Debit. Dishonoured cheque(s) may not be presented again for collection.
3. Unit holders need not submit a copy of cancelled cheque provided the SIP Auto Debit Facility Enrolment Form is attested by the Bank from which SIP installments will be debited.
4. Unit holders have the right to discontinue the SIP facility at any time by sending a written request to any of the designated Investor Service Centers (ISCs) of Principal Mutual Fund. Please also note that notice of such discontinuation should be received at least 18 working days prior to the due date of the next SIP installment.
5. SIP enrolment will be discontinued by AMC in case [a] the SIP installment is not honored consecutively for three SIP installments [b] if any installment of a SIP transaction gets rejected due to the bank account of the Investor being closed, the SIP would be suspended for subsequent SIP transactions and registration will be cancelled for SIP through Auto Debit / Post Dated Cheques (PDCs)/ Direct Debit / Standing Instructions (SIs) [c] the Bank account [for ECS (Debit Clearing) and / or Direct Debit / Standing Instruction and / or PDCs for direct debit] is closed and the request for change in bank account / Bank Branch is not submitted by the concerned unit holder at least 15 working days before the due date of next SIP installment[d] if the Bank account is frozen for further commercial transaction by the Bank. Further, in such cases the balance cheques, if any, will be returned to the unit holder.

Micro SIP:

Pursuant to SEBI's communication to AMFI vide its letter dated June 19, 2009; AMFI has issued guidelines for uniform implementation of the said SEBI letter. In accordance to the same, Systematic Investment Plans (SIP) up to Rs 50,000/- per year per investor ('Micro SIP') shall be exempt from requirement of PAN.

This exemption will be applicable ONLY to investments by individuals (including NRIs but not PIOs), Minors and Sole proprietary firms. HUFs and other categories will not be eligible for Micro SIPs. Details on Micro SIP are available in Statement of Additional Information.

However, effective January 1, 2012, new Investors registering for Micro SIP have to mandatorily submit KYC acknowledgement letter.

Systematic Investment Plan (SIP) for Corporate Employees.

With a view to encourage employees of Corporate to invest their savings into the various Schemes of our Mutual Fund through payroll deductions, Principal Mutual Fund provides an investment facility to the employees of Corporate under the Employee Savings Plan (ESP).

This feature will be guided by the terms and conditions as laid down below:

1. Under this feature the employees can submit application vide the normal

application and/or ESP Forms. The employee is required to fill the details in the normal application/ ESP form providing the details of amount and duration of such SIP installments and the details of such investment should also be provided to the Human Resources Department of such Corporate (HRD).

2. The employees should instruct the HRD to deduct the amount of Investment every month / quarter from their salary for such period as indicated by him / her. Such periodicity shall be monthly or quarterly.
3. The minimum amount and periodicity, to be contributed to open an account under this option is as per the minimum scheme requirements as prescribed under Systematic Investment Plan/additional subscription of the Scheme.
4. The periodic employee contribution should at least be equal to the minimum application amount of SIP. The employee has an option to select either 1st or 5th of every month for such investment.
5. The employee can seek redemption independently.
6. The applicable NAV for application received under such plan, will be as per the date and time (refer to section on cut off timing) on which the request / payment instrument and sheet detailing the list of Investment of such employees, is received from HRD of such Employees at the Official Points of Acceptance of AMC .

3. Systematic Withdrawal Plan

A unitholder may avail of the Systematic Withdrawal Plan and receive regular payments from the account. The unitholder has an option to select 1st, 11th or 21st day of the month on which the Systematic Withdrawal is to be made.

The unitholder may set up a Systematic Withdrawal Plan on a monthly, quarterly or semi-annual or annual basis as follows:

- Redeem a fixed number of units
- Redeem a fixed amount

Once the unitholder sets up a Systematic Withdrawal Facility the plan would continue until:

- The unitholder instructs the Fund to stop periodic withdrawal in writing; or
- The unitholder's account balance is zero
- On expiry of the time/period specified by the unitholder

Withdrawal payments will be endeavoured to be sent within 3 Business Days after the repurchase date.

The minimum balance amount needed for the Systematic Withdrawal Plan may be altered from time to time at the discretion of the AMC.

4. Systematic Switch/Transfer Plan

The unitholder may set up a Systematic Switching/Transfer Plan (STP) on a daily, weekly, monthly, quarterly, semi-annual or annual basis to transfer a fixed number of units and /or amount in one scheme to another scheme or one plan/option to another.

Once the unitholder sets up a Systematic Switching / Transfer Plan the plan would continue until:

- the unitholder instructs the Fund to stop periodic switching in writing;

- or
- the unitholder's account balance is zero.

The unitholder has an option to select 1st, 11th or 21st day of the month on which the Systematic Switch is to be made.

If the selected date is not a business day, the switch will take place on the next business day.

In case of daily and weekly frequency, STP will take place as under:

- (i) Daily – Each Business Day
- (ii) Weekly – Every Monday*

* Next Business Day if Monday is a non-business day.

All switches are subject to the minimum investment and eligibility requirements of the switch in scheme.

The amount subject to an exit load, if any, thus switched shall be converted into the respective scheme units at the applicable NAV, (on which date the payment/switch is scheduled), and such units will be subtracted from the unit balance of that unitholder.

The minimum balance amount needed for the Systematic Switch Plan may be altered from time to time at the discretion of the AMC.

Unitholders may change the amount of systematic withdrawal/switch but not below the specified minimum amount of repurchase for a particular Scheme by giving 30 days written notice to the Registrars/AMC. The various triggers for activating a systematic withdrawal and/or switch facility can also be used for activating a normal repurchase and/or switch facility

5. TRIGGERS/ ALERTS

Under this facility, the unit holders may opt for withdrawal and/or switch in the normal manner based on the value of investment either reaching upto or below or above/beyond a specified particular value; the capital appreciation/gains realization either equals to or becomes more/lower than a specified particular amount or percentage on happening of a particular event, on a particular date etc. (subject to applicable lock in period, if any). Alerts act as a financial planning tool for information. The unit holder may subsequently continue in the scheme or otherwise withdraw/switch. For e.g. an account may be monitored and the unit holder either informed or account redeemed (no redemption will be permitted if under lock-in) as and when the balance reaches or crosses (rise or fall) a desired value or after a certain period of time etc. This helps the unit holders to minimise the loss and/or book timely profits. In case of triggers linked with events/dates, on realisation of gains (equal to/beyond/lower than), a specified amount/full amount/gains/appreciation etc. would be redeemed and paid either when the investment reaches upto and/or beyond (above or below) a particular value or after a particular period of time.

In case of triggers linked with gains/appreciation, at the option of the unit holder, either the amount equivalent to gains/appreciation would be redeemed or the full original investment amount would be redeemed and the gain/appreciation component paid to the unit holder/switched into other scheme/plan, and the original investment amount would be reinvested either in the same scheme/plan or any other scheme/plan.

ACTIVATION OF TRIGGER

Unit holders shall note that NAV of a scheme is determined on close of the business day taking into consideration closing prices of the securities on the primary stock exchange (*please refer to clause on "Valuation Policy" in the SAI & "Computation of NAV" in the SID*). Intra day prices are not considered for valuing the scheme's portfolio. Value of the unit holder's unit balance at the end of a relevant business day based on that day's NAV and closing value of a relevant index of a stock exchange would be used as a base for activating the triggers. However all redemptions/switches/reinvestments etc. linked to such triggers will always be at the applicable NAV based prices of the day on which the event occurs.

Please also note that the trigger is an additional facility provided to the unit holders to save time on completing the redemption/switch formalities on happening of a particular predetermined event. Trigger is not an assurance on part of AMC/Fund to the investor that he/she will receive a particular amount of money/appreciation and/or a percentage on redemption or will get a particular amount of capital appreciation or will minimise the loss to investor to a particular amount or percentage. Trigger is an event on happening of which the Fund will automatically redeem and/or switch the units on behalf of the investors on the date of happening of the event. In actual parlance, a trigger will activate a transaction/alert when the event selected for has reached a value greater or less than the specified particular value (trigger point).

Unit holders can opt from any one of the following event under trigger option:

1. *When value of investment of the unit holder reaches or crosses a particular value/falls to or closes below a particular value*

Eg. Investment Value reaches or crosses Rs.11000/-

Trigger Activation

If investment value at NAV based price is less than Rs.11,000/-, trigger will be activated when value of the units at NAV held by unit holders rises to Rs.11000/- or more on close of any business day.

Eg. Investment Value falls to or closes below Rs.11000/-

If investment value at NAV based price is more than Rs.11,000/-, trigger will be activated when value of the units at NAV held by unit holders falls to Rs.11000/- or below on close of any business day. All transactions linked with trigger will be on the basis of NAV of the business day on which value of units held by unit holders reaches or crosses or falls below Rs.11,000/-.

2. *Capital appreciation of a particular amount*

Eg. Capital appreciation by Rs.1000/-

Trigger Activation

Trigger will be activated when value of units invested at NAV based price appreciate by Rs.1000/- or more at NAV on close of any business day. All transactions linked with trigger will be on the basis of NAV of the business day on which value of investment held by unit holders increases by at least Rs.1000/-.

3. *NAV reaches or crosses a particular value*

Eg. NAV reaches or crosses Rs.11/-

Or when NAV falls to or closes below Rs.11/-

Trigger Activation

If NAV on the date of allotment of investment is less than Rs.11/-, trigger will be activated when NAV rises to Rs.11/- or more on close of any business day. If NAV on the date of allotment of investment is more than Rs.11/-, trigger will be activated when NAV falls to Rs.11/- or below on close of any business day. All transactions linked with trigger will be on the basis of NAV of the business day on which NAV reaches or crosses or falls below Rs.11/-.

4. BSE Sensex reaches or crosses a particular value

Eg. BSE Sensex reaches or crosses 16000

Or when BSE Sensex falls to or closes below 16000

Trigger Activation

If BSE Sensex on the date of allotment of investment is less than 16000, then trigger will be activated when BSE Sensex rises to 16000 or more on close of any business day. If BSE Sensex at the time of investment is more than 16000, then trigger will be activated when BSE Sensex falls to 16000 or below on close of any business day. All transactions linked with trigger will be on the basis of NAV of the business day on which close of day the BSE Sensex reaches or crosses or falls to or closes below 16000 mark.

5. NSE Nifty reaches or crosses a particular value

Eg. NSE Nifty reaches or crosses 5000

Or when NSE Nifty falls to or closes below 5000

Trigger Activation

If NSE Nifty on the date of allotment of investment is less than 5000, then trigger will be activated when NSE Nifty rises to 5000 or more on close of any business day. If NSE Nifty on the date of allotment of investment is more than 5000, trigger will be activated when NSE Nifty falls to 5000 or below on close of any business day. All transactions linked with trigger will be on the basis of NAV of the business day on which close of day the NSE Nifty reaches or crosses or falls below 5000 mark.

6. On a particular day or date

Eg. On 31/1/2013

Trigger Activation

Trigger will be activated on 31/1/2013. All transactions linked with trigger will be on the basis of NAV of 31/1/2013 or on 1/2/2013 if 31/1/2013 is not a business day.

7. Change in the value of units (held by unit holders) at least by certain percentage

Eg Change in Investment Value at least by (+ or — or +/-) 10%

Trigger Activation

Trigger will be activated when value of the units at NAV based price invested by unit holders rises to 10% or more at NAV on close of any business day; or Trigger will be activated when value of the units at NAV based price invested by unit holders falls by 10% or more at NAV on close of any business day; or Trigger will be activated when value of the units at NAV based price invested by unit holders either rises by 10% or more at NAV or falls by 10% or more on close of any business day.

Percentage rise or fall in value of units will be calculated on the amount invested by the unit holders.

8. Capital appreciation of at least a certain percentage

Eg. Capital appreciation of at least (+ or — or +/-) 10%

Trigger Activation

Trigger will be activated when value of the units at NAV based price invested by unit holders appreciate to 10% or more at NAV on close of any business day; or Trigger will be activated when value of the units at NAV based price invested by unit holders depreciates by 10% or more at NAV on close of any business day; or Trigger will be activated when value of the units at NAV based price invested by unit holders either appreciates by 10% or more at NAV or depreciates by 10% or more at NAV on close of any business day.

Difference between the value of units on close of a business day (at NAV) and amount invested (at NAV based price) will be used as a base for calculating percentage of capital appreciation.

9. Change in the NAV at least by a certain percentage

Eg. Change in NAV at least by (+ or — or +/-) 10%

Trigger Activation

Trigger will be activated when the NAV of the units rises by 10% or more on close of any business day compared with the NAV on the date of allotment of investment; or Trigger will be activated when the NAV of the units falls by 10% or more on close of any business day compared with the NAV on the date of allotment of investment; or Trigger will be activated when the NAV of the units either rises by 10% or more or falls by 10% or more on close of any business day compared with the NAV on the date of allotment of investment

Percentage rise or fall in NAV will be calculated comparing NAV on a particular business day with the NAV on the date of allotment of investment.

10. Change in the BSE Sensex at least by a certain percentage

Eg. Change in BSE Sensex at least by (+ or — or +/-) 10%

Trigger Activation

Trigger will be activated when the BSE Sensex rises by 10% or more on close of any business day compared with the BSE Sensex on the date of allotment of investment; or Trigger will be activated when the BSE Sensex falls by 10% or more on close of any business day compared with the BSE Sensex on the date of allotment of investment; or Trigger will be activated when the BSE Sensex either rises by 10% or more or falls by 10% or more on close of any business day compared with the BSE Sensex on the date of allotment of investment.

Percentage rise or fall in BSE Sensex will be calculated comparing BSE Sensex on a particular business day with the BSE Sensex on the date of allotment of investment.

11. Change in the NSE Nifty at least by a certain percentage

Eg. Change NSE Nifty at least by (+ or — or +/-) 10%

Trigger Activation

Trigger will be activated when the NSE Nifty rises by 10% or more on close of any business day compared with the NSE Nifty on the date of allotment of investment; or Trigger will be activated when the NSE Nifty falls by 10% or more on close of any business day compared with the NSE Nifty on the date of allotment of investment; or Trigger will be activated when the NSE Nifty either rises by 10% or more or falls by 10% or more on close of any business day compared with the NSE Nifty on the date of allotment of investment.

Percentage rise or fall in NSE Nifty will be calculated comparing NSE Nifty on a particular business day with the NSE Nifty on the date of allotment of investment;

On happening of any of the above mentioned events, the Unit holder can opt for the following action on the date of happening of the relevant event;

- Full redemption
- Redemption of gains only
- Full switch into other Scheme/Plan / Option of Principal Mutual Fund
- Switch of only gains into other Scheme / Plan/Option of Principal Mutual Fund
- Full Redemption: Original investment amount reinvested in any scheme of Principal Mutual Fund and gains paid to unit holder
- Full redemption: Gains reinvested in any Scheme/Plan/Option of Principal Mutual Fund and investment amount paid to unit holder
- Redemption of certain number of units
- Redemption of certain amount

Transactions linked with the triggers will be at the applicable NAV based price of the business day on which the event takes place. Further all the predetermined events i.e. the value of the unit balance, capital appreciation, NAV, BSE Sensex, NSE Nifty will be compared with the value of units, NAV, BSE Sensex and NSE Nifty prevailing on the date of investment (i.e. date of allotment) irrespective of the fact whether the trigger is opted on the date of allotment of investment or subsequently.. For eg an investor has invested at Rs.11/- and opted for full redemption if NAV appreciates at least by 10%. Trigger will be activated on the business day when NAV moves to Rs.12.10 (i.e. 10% more than Rs.11/-) or more.

Triggers(s) linked to BSE Sensex or NSE Nifty will always compare the value of BSE Sensex or NSE Nifty on close of business day. In case BSE or NSE is open on a non-business day, its value will not be considered even if it reaches or crosses a trigger value, and on any subsequent business day if the value of BSE or NSE is reached, the same would be considered for trigger purposes. For eg. A unit holder has opted for full redemption if NSE Nifty reaches or crosses 5000 mark. If NSE is open on January 1, 2013, but it is not a business day for the Fund, trigger will not be activated (i.e. redemption will not take place) even though closing value of Nifty as on January 1, 2013, is 5000 or more.

The closing value of BSE Sensex/NSE Nifty on non-business day will be ignored for trigger activation. A trigger once activated will not be reactivated in any other scheme where the switch/reinvestment happens or in the same scheme which retains part of the value or in case of normal redemption/switch before trigger activation. Triggers will be deactivated on redemption and/or switch and/or pledge of units except in case where only gains are to be redeemed or switched and opted for the same in the trigger form.

MONTHLY SCAS:

A single Securities Consolidated Account Statement ('SCAS')^ for each calendar month to the Unit holder(s) who are holding a demat account ('Beneficial Owner(s)') in whose folio(s) transaction(s) has/have taken place during the month on or before 10th of the succeeding month shall be sent by mail/e-mail.

^Securities Consolidated Account Statement ('SCAS') shall contain details relating to all the transaction(s)** carried out by the Beneficial Owner(s) (including transaction charges paid to the distributor) across all schemes of all mutual funds and transactions in securities held in dematerialized form across demat accounts, during the month and holdings at the end of the month.

**transaction(s) shall include purchase, redemption, switch, dividend payout, dividend reinvestment, systematic investment plan, systematic withdrawal advantage plan, systematic transfer plan, bonus transactions, etc.

For the purpose of sending SCAS, common investor(s) across mutual funds and the database of Depositories shall be identified based on the Permanent Account Number (PAN). In case of multiple holding, identification shall be based on the PAN of the first holder and the pattern of holding.

The SCAS will be sent by e-mail to the investor(s) whose e-mail address is registered with the Depositories. In case an investor does not wish to receive SCAS through e-mail, an option shall be given by the Depository to receive SCAS in physical. The SCAS shall not be received by the Unit holder(s) for the folio(s) not updated with PAN and/or KYC details. The Unit holder(s) are therefore requested to ensure that the folio(s) are updated with their PAN/KYC. Where PAN is not available, the account statement shall be sent to the Unit holder by the AMC.

In case of a specific request received from the Unit holder(s), the AMC/Fund will provide an account statement (reflecting transactions of the Fund) to the Unit holder(s) within 5 Business Days from the receipt of such request. In case an investor does not wish to receive SCAS, an option shall be given by the Depository to indicate negative consent. Investor(s) having multiple demat accounts across the Depositories shall have an option to choose the Depository through which the SCAS will be received.

The half yearly consolidated account statement will be sent by e-mail to the Unit holders whose e-mail address is available, unless a specific request is made to receive in physical.

^ Consolidated Account Statement (CAS) shall contain details relating to all the transactions** carried out by the investor across all schemes of all mutual funds during the month and holding at the end of the month including transaction charges paid to the distributor.

** 'Transaction' shall include Purchase, Redemption, Switch, Dividend Payout, Dividend Reinvestment, Systematic Investment Plan, Systematic Withdrawal Plan and Systematic Transfer Plan.

Account/Folio Number:

Each unit holder will have an account/folionumber. The number of units allotted to a unit holder or repurchased by a unit holder will be reflected in his or her account and a statement/advice to this effect will be issued to the unit holder.

Common Account Number:

As a investor friendly measure, (if so desired by the investor), one Common Account Number will be assigned for an investor investing in different schemes of the Fund. In such a case, one consolidated account statement will be provided. Once set up as per the request made by the investor, the AMC reserves the right to assign the existing Common Account Number against multiple applications and/or subsequent purchases under a new application form by an existing unit holder, with identical mode of holding and address.

Account Statement:

The Account Statement shall not be construed as a proof of title and is only a computer-printed statement indicating the details of transactions under the scheme and is a non-transferable document. The Account Statement shall normally be dispatched within three business days on an ongoing basis.

	<p>Unit Certificates:</p> <p>Normally no unit certificates will be issued under the Scheme. However, if the unit holder so desires, the AMC shall issue a non-transferable unit certificate to the unit holder within 30 days of the receipt of request for the certificate. The cost of stamp duty paid for issuing the unit certificate will form part of the annual on-going expenses and/or may be recovered from the unit holder.</p> <p>.</p> <p>Rematerialisation of Demat Units:</p> <p>The unitholders who converted their units in demat mode may also rematerialize their units. The request for rematerialising the demat Units may be given to the respective Depository Participant (DP) of the investor. On receiving the confirmation of demat Units balance, account statement for the physical Units shall be issued. The same number of Units held in the demat mode shall be continued in the physical mode. Rematerialisation of demat Units shall be processed within the thirty days or such other days as may be stipulated under SEBI Regulations from the date of receipt of such a request, provided it is complete and valid in all respects.</p>
Dividend	<p>The dividend warrants shall be dispatched to the unitholders within 30 days of the date of declaration of the dividend. Efforts are being made to directly credit the dividend to the Unitholders account.</p>
Dividend Policy	<p>In the interest of the Scheme and the unit holders, the AMC/Trustees may consider providing returns to the unit holders at appropriate times by way of periodic declaration of dividend under the Scheme after providing for all necessary recurring and other expenses. Distribution of dividend is subject to availability and adequacy of distributable surplus and approval of the Trustees. Quantum of dividend/units and the record date will be fixed by the Trustee and dividend so decided shall be paid, subject to availability of distributable surplus.</p> <p>Only those unit holders whose names appear in the register of unit holders as on the record date will be entitled for dividend This date will be fixed by the AMC/Trustees appropriately.</p> <p>The dividend warrants and/or fresh Account Statement shall be dispatched / credited to the unit holders within 30 days or such stipulated period of the declaration of dividend. In the event of failure to dispatch dividend within the stipulated 30 day period, the AMC shall be liable to pay interest @15 per cent per annum to the unit holder(s).</p> <p>Where the periodicity of dividend is not pre-defined under dividend option, dividends may be declared by the trustees based on availability and adequacy of distributable surplus.</p> <p>Dividends will be paid net of taxes as may be applicable and payments will be in favour of the Unit holder's registered name or, if there is more than one registered holder, of the first named registered holder on the folio. The Trustees may not declare a dividend at all in the event of inadequacy of distributable income. There is no assurance or guarantee to unit holders as to the periodicity of dividend.</p> <p>All dividend declarations shall be available only to the Unit holders who hold units at the time of its/their declaration.</p> <p>Since distribution of dividend and shall be paid from the distributable surplus,</p>

	<p>the NAV of the Scheme shall be adjusted to the extent of dividend paid</p> <p>AMC reserves the right to include/remove/modify the frequency for declaration of dividend as may be deemed appropriate, subject to relevant provisions of SEBI regulations.</p>
Redemption	<p>Repurchase/Redemption Procedure:</p> <p>The units of the Scheme can be repurchased (sold back to the Fund) on any business day. The repurchase request can be made on Application Form/Common Transaction form or by using the relevant tear off section of the Transaction Slip that may be enclosed with the Account Statement, which should be submitted at any of the Official Point of Acceptance. Where the date of redemption is a non business day, the deemed date for such redemption will be the next business day.</p> <p>In case the units are standing in the names of more than one unit holder, where mode of holding is specified as “jointly”, repurchase requests will have to be signed by all the joint holders. However, in cases of holding specified as ‘either/anyone or survivor’, any one of the joint holders (in case of either/anyone or survivor) will have the power to make repurchase request. However, in all cases, the repurchase proceeds will be paid to the first named holder only.</p> <p>In case a unit holder has subscribed to units on more than one Business Day, the units subscribed to prior in time (that is those units which have been held for the longest period of time), will be deemed to have been repurchased first, that is on a First -In -First-Out basis. However, a unit holder may request the Fund to repurchase units subscribed by him/her at different dates, by indicating the specific date of subscription of the units, which is offered for repurchase.</p> <p>The repurchase would be permitted to the extent of credit balance in the unitholder’s account. The repurchase request can be made by specifying the Rupee amount or by specifying the number of units to be repurchased. If a repurchase request is for both a specified Rupee amount and a specified number of units, the specified rupee amount will be considered the definitive request. If only the repurchase amount is specified by the unit holder, the AMC will divide the repurchase amount so specified by the applicable NAV based price to arrive at the number of units. The request for repurchase of units could also be in fractions, up to three decimal places.</p> <p>If the number of Units held by the Investor as per the records maintained by AMC and/or the Registrar is less than the number of Units requested to be redeemed then, all the Units held by the Unit holder in such folio / Scheme / plan for which application for Redemption is made, shall be redeemed. Provided that, where redeem ‘all’ is specified in the request, all Unit holdings in that Scheme shall be redeemed.</p> <p>The AMC reserves the right to change the minimum repurchase amount on a prospective basis subject to SEBI Regulations. Unit holders may also request for repurchase of their entire holding and close the account by indicating the same at the appropriate place in the Transaction Slip/Repurchase form.</p> <p>In case if the date of redemption is a non business day, the deemed date will be the next business day</p> <p>Repurchase Price</p>

The repurchase price will be calculated using the following formula:

Repurchase Price = Applicable NAV*(1 – Exit Load, if any).

Example for calculation of Repurchase Price

If the Applicable NAV is Rs. 11.25 and a 1.00% exit load is charged the repurchase price will be calculated as follows:

Repurchase Price = Rs.11.25 x (1-1.00% of Rs.11.25)

= Rs. 11.25 – Rs. 0.1125

= Rs.11.1375 per unit

The repurchase price shall not be lower than 93% of the NAV.

The AMC reserves the right to modify the exit load. However, any such change in the load structure shall be only on a prospective basis. The unit holder is requested to confirm the applicable exit load at the time of investment from the AMC/OPT.

Repurchase by NRI's/ FIIs

Repurchase of unit balances in the account of an NRI/FII will be subject to any procedures laid down by the RBI. Such repurchase proceeds will be paid by means of a rupee cheque payable to the designated NRE/ NRO account of the unit holder and subject to RBI procedures and approvals and subject to deduction of tax at source, as applicable. All bank charges in connection with such payment will have to be borne by the unit holder and/or the Scheme by way of ongoing expenses.

Payment of Repurchase Proceeds

The time limit set for dispatch of repurchase proceeds will be from the Business Day when the request is accepted at the Official Point of Acceptance. As per the SEBI Regulations, the Fund shall mail the repurchase proceeds within ten Business Days from the date of acceptance of valid request at any of the Official Point of Acceptance, in case of a repurchase request being sent by post.

In the event of failure to dispatch the repurchase or repurchase proceeds within the statutory period specified above as per the SEBI Regulations, the AMC shall be liable to pay interest to the unit holders at such rate (currently 15% per annum) as may be specified by SEBI for the period of such delay.

The payment of redemption proceeds and/or dividend amount may also be released through NEFT / RTGS facility in addition to other options available for releasing the payment.

Electronic Credit Clearing Services (ECS) Identified Banks

ECS is a facility offered by RBI for facilitating better customer service by direct credit of dividend or repurchase amount to a unit holder's bank account through electronic credit. This helps in avoiding loss of dividend or repurchases warrant in transit or fraudulent encashment. The Fund will endeavour to arrange such facility for payment of dividend/repurchase proceeds to the unit holders. However, this facility is optional for the unit holders. Repurchase proceeds may be released through the ECS facility to unit holders residing in any of the cities where such a facility is available. In order to avail the above facility, the unit holder will have to give a written request to the Registrar. If the unit holder has opted for the ECS facility his/her bank branch will directly credit the amount due to them in their account whenever the payment is through ECS. The Registrar will send a separate advice to the unit holder informing them of the direct credit. It may be noted that there is no commitment from the Fund that this facility will be

made available to the unit holders for payment of dividend/repurchase proceeds. While the Fund will endeavour in arranging the facility it will be dependent on various factors including sufficient demand for the facility from unit holders at any centre, as required by the authorities. In places where such a facility is not available or if the facility is discontinued by the Fund for any reason the repurchase warrants will be mailed to the unit holder.

Unit holder's Bank Account Details

Unit holders are on a mandatory basis are required to mention their bank account details in their applications/ requests for redemption. Redemption Cheques and/or any other instruments will then be made out in favour of the “Investor Name, Bank Name, Account Number, << >>” for crediting the respective unit holder's account so specified.

In case of those investors who have not provided their bank account details at the time of investment or thereafter, the redemption applications are liable to be rejected. The AMC will not be responsible for any loss arising out of fraudulent encashment of cheques and delay/loss in transit.

Further, in accordance with AMFI communication no. 135/BP/26/11-12 dated March 21, 2012, following process vis-à-vis change in bank mandate is being followed effective May 1, 2012 (effective date) -

Investor shall also have the facility to register multiple bank accounts as detailed in the section below on “Multiple Bank Accounts”. Only Pay-in from such registered bank accounts shall be treated as First party payments.

Additionally, in case of following mode of payments below stated documents should be enclosed with the subscription application:

a) **Pay Order, Demand Draft, Banker's Cheque and the like:** Certificate from the Issuing Banker, stating the Account holder's name and the Account number which has been debited for issue of such instrument.

As directed by AMFI, a copy of acknowledgement from the Bank wherein the instructions to debit the Investor's bank account and name of the Investor as on account holder are available OR copy of pass book/bank statement evidencing the debit for issuance of a DD, shall also be accepted by the Mutual Fund.

b) **Pay Order, Demand Draft, Banker's Cheque and the like issued against cash by the Bank [for an investment amount less than Rs. 50,000/- only]:** Certificate from the Banker giving name, address and PAN (if available) of the person who has requested for the demand draft.

c) **Payment vide RTGS, NEFT, ECS, Bank Transfer, etc:** copy of the instruction to the bank stating the account number debited must accompany the purchase application.

In such instance, where, post verification it is found that the payment, in any mode, is not made from a registered bank account or is made from an account where the first named unit holder is not an Account holder / one of the account holder in case of Joint Bank Account, the AMC/R&T, reserves the right to reject the transaction / subscription application, without any liability.

Additionally, in order to prevent fraudulent practices, Investors are urged to make the payment instruments (cheque / Demand draft / Pay Order etc.) favouring "XYZ Scheme A/c. First Investor Name" OR "XYZ Scheme A/c. Permanent Account Number" OR "XYZ Scheme A/c. Folio Number".

Multiple Bank Accounts:

Unitholders shall have the facility to register multiple bank accounts at folio level - upto a maximum of 5 Bank Accounts in case of Individual and HUF Investor and 10 Bank Accounts in case of Non Individual Investor. Such facility can be availed by submitting duly filled in "Multiple Bank Account Registration form" at the Investor Service Centre closest to you, along with copy of any one of the following documents:

a) cancelled cheque leaf of the bank account which has to be registered [the account number and name of the first unitholder should be printed on the cheque leaf];

b) Bank Statement / Pass Book with the account number, name of the Unitholder and Address;

c) Bank letter / certificate on its letter head certifying the account holder's name, account number and branch address [Such letter / certification should be certified by the Bank Manager with his / her full name, signature, employee code.]

Investors should also present the Original of the above Document submitted along with the subscription application, and such original document shall be returned across the Counter post due verification

Subsequent, to successful registration of multiple bank accounts, Investors

	<p>can select any of the registered bank accounts in the application form for the purpose of subscriptions, redemption and dividend proceeds. Investor shall also have the option to register any one of their account as a default bank account for credit of redemption /dividend proceeds.</p> <p>Further an Investor may also opt to delete a registered default bank account; however, such deletion of a default bank account shall be permitted only if the Investor registers another registered account as a default account and the same shall be in accordance with the procedure as stated in the section titled “change in bank mandate”.</p> <p>In the event of rejection of such registration application for any reason, the redemption / dividend proceeds shall be processed as per specified service standards and the last registered bank account information in the records of Registrar & Transfer Agent - Karvy Computershare Private Limited, will be relied upon and used for such payments.</p> <p>It is clarified that in case of Change of Bank Account along with Redemption application submitted by the Investor, the redemption proceeds shall be credited to the said bank account only if it is a registered bank account in the records of R&T.</p> <p>However, if the new bank account is not one of the registered bank accounts, the redemption proceeds shall be credited to such new bank account post completion of the cooling off period as prescribed by AMFI and within regulatory prescribed timelines.</p>
<p>Restrictions, if any, on the right to freely retain or dispose of units being offered.</p>	<p>RIGHT TO LIMIT REPURCHASES</p> <p>The AMC may, in the general interest of the unit holders of the Scheme, keeping in view the unforeseen circumstances/unsure conditions, limit the total number of units which may be repurchased on any Business Day to 15% of the total number of units of the Scheme (or such higher percentage as the AMC may decide in any particular case). Any units which by virtue of these limitations are not repurchased on a particular Business Day will be carried forward for repurchase to the next Business Day, in order of receipt. Repurchases so carried forward will be priced on the basis of the Repurchase Price of the Business Day on which repurchase is made. Under such circumstances, to the extent multiple repurchase requests are received at the same time on a single Business Day, repurchase will be made on pro-rata basis, based on the size of each repurchase request, the balance amount being carried forward for repurchase to the next Business Day(s).</p> <p>POSSIBLE DEFERRAL OF REDEMPTION/ REPURCHASE REQUESTS</p> <p>Whilst every effort will be made to ensure that the Scheme will have sufficient liquidity to enable the repurchase cheques to be collected/dispatched within the deadline stated in the foregoing clause, unit holders should note that where the Scheme is obliged to arrange for the disposal of the underlying securities/borrow, in order to satisfy redemption/repurchase requests, unit holders may experience some delays in receiving repurchase cheques, reflecting the time involved in settling the underlying sales of securities/borrowing. However in any case, the Fund will ensure that the collection/dispatch of repurchase cheques is not delayed beyond ten working days (when Principal Mutual Fund is open for business) from the date of receipt of the repurchase request in accordance with Regulation 53(b) of the Securities and Exchange Board of India (Mutual</p>

Funds) Regulations, 1996.

SUSPENSION OF SALE/REPURCHASE/SWITCH OPTIONS OF THE UNITS

The Fund at its sole discretion reserves the right to withdraw sale, repurchase and/or switch of the units under the Scheme, temporarily or indefinitely, if in the opinion of the AMC the general market conditions are not favourable. However, the suspension of sale/repurchase/switch either temporarily or indefinitely will be made applicable only after the approval of the Board of Directors of the AMC and Trustee. The approval from the AMC Board and the Trustees giving details of circumstances and justification for the proposed action shall also be informed to SEBI in advance.

The sale, repurchase and switch of the units may be temporarily suspended under any or all of the following conditions :

- Under uncertain conditions when the market (capital/stock/money etc. become extremely volatile and the AMC so decides in the best interest of the unit holders)
- If the stock/money markets stop functioning or trading is restricted
- Declaration of war or occurrence of insurrection, civil commotion or any other serious or sustained financial, political or industrial emergency or disturbance or any natural calamity
- In extreme cases or complete breakdown or dislocation of business in the financial markets.
- Breakdown in the means of communication used for the valuation of investments in the Scheme, without which the value of the securities held in the Scheme cannot be accurately calculated.
- In the event of any force majeure or disaster that affects the normal functioning of the AMC or the ISC
- SEBI by order so permits
- During the period of Book Closure/Record Date
- On a requisition made by three-fourth's of the unit holders.
- If AMC views that enhancement in the size of the corpus further may prove detrimental to the existing unit holders of the Scheme.

D. COMPUTATION OF NAV

The NAV of the Scheme for each option at any time shall be determined by dividing the net assets of the Scheme by the number of outstanding units on the valuation date.

NAV per unit = (Market / Fair Value of Securities + Accrued Income + Receivables+ other assets+ Accrued Expenses – payables-other liabilities)

<hr/> No. of units outstanding of the scheme / option
--

The NAVs of Principal Index Fund – Midcap will be calculated up to four decimals. The NAVs will be declared on every Business Day by 9.00 p.m.

The computation of Net Asset Value, valuation of assets, computation of applicable Net Asset Value (related price) for repurchase, switch and their frequency of disclosure shall be based upon a formula in accordance with the Regulations and as amended from time to time including by way of Circulars, Press Releases, or Notifications issued by SEBI or the Government of India to regulate the activities and growth of Mutual Funds.

The dividend paid on units under the Dividend Option of the Fund shall be deducted in computing the NAV of the units under the Dividend Option, each time a dividend is declared and till it is distributed. Consequently, once the dividend is distributed, the NAV of the units will always remain lower than the NAV of the units under the Growth Option. The income earned and profits realized attributable to the units under the Growth Option shall remain invested and shall be deemed to have remained invested in the Growth Option (exclusive of the units under the Dividend Option) and would be reflected in the NAV of the units under the Growth Option.

The valuation of a Scheme's assets and calculation of a Scheme's NAV shall be subject to audit on an annual basis and such regulations as may be prescribed by SEBI from time to time.

Insert expense table for index fund

^{\$}**Direct Plan** under the aforementioned Scheme shall have a lower expense ratio excluding distribution expenses, commission, etc. and no commission for distribution of Units will be paid / charged under the Direct Plan.

#Expenses charged under this clause shall be utilised for distribution expenses incurred for bringing inflows from such cities.

Provided further that amount incurred as expense on account of inflows from such cities shall be credited back to the scheme in case the said inflows are redeemed within a period of one year from the date of investment.

The AMC may charge investment management and advisory fees and other expenses up to 2.50% of the daily net assets. The AMC reserves the right to change the estimates; both inter se or in total, subject to prevailing SEBI Regulations.

^The nature of expenses can be any permissible expenses including Investment Management & Advisory Fees. The purpose of the above table is to assist in understanding the various costs and expenses that the Unit Holders in the Scheme will bear directly or indirectly.

The above estimates for recurring expenses for the Scheme are based on the corpus size of INR 1,000 million, and may change to the extent assets are lower or higher.

The AMC may incur actual expenses which may be more or less than those estimated above under any head and / or in total.

- (a) Brokerage and transaction costs incurred for the purpose of execution of trades and included in the cost of investment, not exceeding 0.12% of the value of trades in case of cash market transactions and 0.05% of the value of trades in case of derivative transactions;
- (b) Expenses not exceeding 0.30% of daily net assets, if the new inflows from such cities as specified by SEBI from time to time are atleast (i) 30% of gross inflows in the Scheme OR (ii) 15% of the average assets under management (year to date) of the Scheme - whichever is higher.

However if inflows from such cities is less than the higher of (i) & (ii) as mentioned above, such expenses on daily net assets of the Scheme may be charged on proportionate basis. Further, the expenses charged under this clause shall be utilized for distribution expenses incurred for bringing inflows from such cities. The amount incurred as expense on account of inflows from such cities shall be credited back to the scheme in case the said inflows are redeemed within a period of one year from the date of investment.

- (c) Additional expenses incurred towards different heads mentioned under sub-regulation 52(2) & 52(4) of the Regulation not exceeding 0.20% of the daily net assets of the scheme.

AMC may charge service tax on investment and advisory fees of the scheme in addition to the maximum limit of TER as per the Regulation 52(6) and (6A).

In case of Principal Index fund- Midcap, pursuant to in accordance with Regulation 52 of the SEBI(Mutual Funds) Regulations, 1996, the maximum recurring expenses including the Investment Management and Advisory Fees that can be charged to the Scheme shall not exceed one and one half percent (1.5%) of the daily net assets of the Scheme.

Subject to the SEBI Regulations and this Document, expenses over and above the prescribed ceiling will be borne by the AMC and/or by Sponsor and/or Trust. The Fund shall strive to reduce the level of these expenses so as to keep them well within the maximum limits currently allowed by SEBI and any revision in the said expenses limits by SEBI would be applicable.

The AMC reserves the right to change/modify exit/switchover load (including zero load), depending upon the circumstances prevailing at any given time. A public notice shall be given in respect of such changes in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of region where the Head Office of the Mutual Fund is situated and also display the same on the website / Investor service center.

The AMC may also:

- i. Attach the Addendum to Scheme Information Document and Key Information Memorandum and / or circulate the same to Distributors / Brokers so that the same can be attached to all Scheme Information Documents and Key Information Memoranda already in stock.
- ii. Arrange to display the addendum to the Scheme Information Document in the form of a notice in all the investor service centres and distributors/brokers office.
- iii. Disclose exit load/ CDSC in the statement of accounts issued after the introduction of such load/CDSC.
- iv. take other measures which it may feel necessary.

The investor is requested to check the prevailing load structure of the scheme before investing. For the current applicable structure, he may refer to the website of the AMC - www.principalindia.com or may call at may call at 1800 425 5600 or your distributor.

- 9) Units issued on reinvestment of dividends shall not be subject to exit load.
- 10) Load on switch out will be same as exit load applicable to the respective schemes.
If the Applicable NAV is Rs.11.25 and a 1% exit load is charged the repurchase price will be calculated as follows:
E.g. Repurchase Price = Applicable NAV x (1-Exit Load, if any).
Therefore, the Repurchase Price would be Rs11.25 x (1-1.00% of Rs11.25) = Rs11.1375.
- 11) The repurchase price shall not be lower than 93% of the NAV and the sale price shall not be higher than 107% of the NAV. However, the difference between the repurchase price and sale price shall not exceed 7% on the sale price.
- 12) The exit load may be linked to the period of holding. Any imposition/enhancement or change in load structure shall be applicable on prospective investment only. However, any change at a later stage shall not affect the existing unit holders adversely.

Transaction Charges –
