IV. PROCEDURE FOLLOWED AT UTI AMC FOR TAKING INVESTMENT DECISIONS, INVESTMENT VALUATION NORMS FOR SECURITIES AND OTHER ASSETS

1. The investment set-up

The broad procedure followed at UTI AMC for taking investment decisions is summarised as follows:

- (i) The investments of the scheme are managed by a Fund Manager on a regular basis. The Fund Manager constructs the appropriate portfolio in

the light of the scheme objectives, prudential exposure norms, fund size, tenure of the scheme and the liquidity required for income distribution considering the normal redemption etc. All the investment decisions are based on scheme's investment objectives, internal guidelines, regulatory restrictions etc. The portfolio is monitored based on the research inputs, present & expected market conditions, future outlook on the economy/sectors/individual scrip and fresh inflows/outflows in the scheme with a view to optimise the returns under the scheme. The Fund Manager's operational strategy and its implementation are reviewed by the Head of Equity on an ongoing basis.

- (ii) Department of Securities Research is an internal set-up with analysts tracking specific sectors, which provides regular inputs to the Fund Managers on stocks/industries/sectors, implication of Govt./RBI policies and trends in international markets. The Fund Managers and Research Analysts interact regularly through meetings and presentations. These inputs are discussed thoroughly in these meetings. The Fund Managers and Analysts visit companies to obtain all publicly available information on company performance/ management perspectives. The Fund Managers also attend company presentations as well as presentations by external research outfits/broking firms on company/ industry performance.

- (iii) **Primary market investments:** The investments in Initial Public Offerings and Private Placements in primary markets are screened and scrutinized by research team/FMs. On the basis of the information and/or research reports, the Fund Managers give their recommendation on the proposals keeping in mind the scheme's investment objectives, internal guidelines and SEBI guidelines. Such proposals are approved by Head of Fixed Income/Head of Equity/Executive Investment committee (EIC) as per delegation of power. If any investment proposals exceed the delegated limits laid down by the internal guidelines then Managing Director of UTI AMC would also join the EIC as one of its members.

- (iv) **Secondary market investments:** Fund Managers also interact with Research Analysts and Dealers on regular basis. The Fund Managers also have access to external sources of data from analysts, publicly available information about company / sector etc. The Fund Manager prepares a strategy paper for the scheme on periodic basis, which is discussed with senior management of UTI AMC. Finally, these investment decisions made by the Fund Managers are executed by the designated dealer.

- (v) **Inter Scheme Transfers:** The inter-scheme buy and sale transactions are effected as per the SEBI Regulations.

- (vi) **Monitoring:** A memorandum to the Board of Directors of the Trustee Company is submitted containing a report for due diligence on investment decisions by UTI AMC for UTI MF schemes for each quarter.

2. Computation and disclosure of NAV

- (a) The Net Asset Value (NAV) of the scheme shall be calculated by determining the value of the scheme's assets and subtracting therefrom the liabilities of the scheme taking into consideration the accruals and provisions. NAV shall be declared separately for different options of the scheme.
- (b) The NAV per unit shall be calculated by dividing the NAV of the scheme by the total number of units issued and outstanding on the valuation day. The NAV will be rounded off upto four decimal places.
- (c) When the securities are traded on more than one recognised stock exchange, the securities shall be valued at the last quoted price on the stock exchange, available at the time of valuation of scheme portfolio for the purpose of computing the NAV, where the securities are principally traded. UTI AMC will select the appropriate stock exchange for each such security, but the reasons for the selection would be recorded in writing. All scrips may be valued at the price quoted on the stock exchange where a majority in value of the investments is principally traded. Once a stock exchange has been selected for valuation of a particular security, reasons for change of the exchange shall be recorded in writing by UTI AMC.
- (d) A valuation day is a day other than (i) Saturday and Sunday (ii) a day on which both the stock exchanges (BSE and NSE) and the banks in Mumbai are closed (iii) A day on which the purchase and redemption of units is suspended. If any business day in UTI AMC, Mumbai is not a valuation day as defined above then the NAV will be calculated on the next valuation day and the same will be applicable for the previous business day's transactions including all intervening holidays.
- (e) The NAVs shall be issued to two daily newspapers for publication on a daily basis and will also be available on web-site of UTI Mutual Fund, www.utimf.com and web-site of AMFI namely www.amfiindia.com.

3. Valuation of investments:

Valuation Policy and Procedures

Equity and Equity related Securities:

- (a) **Traded Securities**
(Equity shares and equity related securities like rights, warrants, preference shares etc.)

A security is treated as 'traded' in the following circumstances:

- The security is traded on any stock exchange within a period of 30 days (including the date of valuation) and if:
 - the aggregate volume of trade during such period is more than 50,000; or
 - the trade value is greater than Rs.5,00,000
- these are valued at the closing prices on NSE, (and if NSE price is not available BSE price is considered). The principle stock exchange for valuation of equity shares is NSE. The equity shares held in the UTI SENSEX ETF will be valued at their closing prices as per the BSE.

(b) **Non traded / Thinly traded / Unlisted equity shares:**

Investments in securities, which have not been traded on any stock exchange in the aforesaid manner, are stated at fair value as determined by UTI AMC in accordance with the provisions of the SEBI (Mutual Fund) Regulations, 1996 as detailed below.

Based on the latest available Balance Sheet, net worth shall be calculated as follows:

Share Capital

Plus: Reserves (excluding revaluation Reserve)

Less: Miscellaneous Expenditure

Less: Intangible Assets (in case of unlisted securities)

Less: P & L Accounts (Debit Balance)

The resultant figure is the Net Worth of the Company, which when divided by the numbers of shares outstanding gives the net worth per share.

Capitalized earning price will be arrived at by multiplying the earnings per share with the discounted industry P/E ratio. Average capitalization rate (P/E ratio) for the industry based upon either BSE or NSE data shall be taken and discounted by 75%. Earnings per share of the latest audited annual accounts will be considered for this purpose. The value as per the net worth value per share and capital earning value calculated as above shall be averaged and further discounted by 10% for illiquidity so as to arrive at the fair value. In case of unlisted equity shares the discount factor will be 15% instead of 10%.

In case, the Earning per share (EPS) is -ve, EPS value for that year shall be taken as zero for arriving at capitalized earning. In case latest balance sheet is not available within 6 months from the close of the year, the shares of such companies shall be valued at zero. If the net worth of the company is -ve the share would be marked down to zero. In case an individual security accounts for more than 5% of the total assets of the scheme, an independent valuer shall be appointed for the valuation of the said security.

In case the fair value price so arrived is higher than the latest available quote price, then quote price is considered, provided the quote price is not older than 30 days.

(b) **Non traded / Thinly traded / Unlisted rights share/Debt in the form of Rights and warrants:**

Rights shares /warrants are valued at underlying equity share price minus exercise price. In case the exercise price is greater than the ex-rights price, the value of the rights share is to be taken as zero. In case exercise price is payable in more than one installment, then the rights shares are valued at underlying equity share price minus uncalled liability. Where the rights/warrants are not treated pari passu with the existing shares, suitable adjustment should be made to the value of rights/warrants. In case of unlisted company, the rights share value is taken into consideration after their allotment by way of recomputing the fair value of the equity shares, after considering the allotment of rights. If Debt securities in the form of rights are issued, the same is valued as per the debt valuation norms, from the date of allotment of the securities. Till such time they are valued at face value - exercise price or as suggested by the valuation committee.

(d) Non traded / thinly traded / Unlisted Preference shares:

Non convertible preference shares are valued at the present value of future expected dividend payments and maturity value, discounted at the expected rate of return on preference shares. The valuation committee will decide upon variables like expected future dividend, expected rate of return etc. on a case to case basis depending on the terms of issue of the preference shares.

Convertible preference shares will be valued based on the underlying equity, further discounted for illiquidity at an appropriate percentage. The illiquidity percentage will be decided by the Valuation Committee on a case to case basis.

The valuation committee may in specific cases decide to use a different method for valuation of preference shares by assigning reasons therefor.

(e) Corporate Action:

In case of demerger if Shares of only one company continue to be traded on de-merger, the other security is valued at traded value on the day before the de merger less value of the traded security post de merger. The valuation committee may decide to apply appropriate illiquidity discount on a case to case basis. If post demerger value of the share of de merged and traded company is equal or in excess of the value of the pre de merger share, then the non traded share is to be valued at zero.

If both the shares are not traded on de-merger: the traded price prior to demerger, will be allocated between the post-demerger companies on an appropriate basis like Price Earnings ratio, net worth or any other measure, as per the decision of the Valuation Committee.

The untraded/unlisted shares resulting from demerger will be valued on fair valuation basis after the audited annual financial results of the demerged company are available.

Foreign Account Tax Compliance Act (FATCA)

Investment in the Units is also subject to various requirements/conditions under Foreign Account Tax Compliance Act (FATCA) of the United States of America with the objective of tackling tax evasion through obtaining information in respect of offshore financial accounts maintained by USA residents and citizens. India and USA have entered into Inter-Governmental Agreement (IGA) in July, 2015 which, inter alia, provides that the Indian FIs

(including Mutual Funds) will provide necessary information to the Indian tax authorities, which will then be transmitted to USA periodically.

These developments will also enable the Indian tax authorities to automatically receive information of Indian residents who have stashed assets in foreign participating jurisdictions.

Common Reporting Standard (CRS)

To combat the problem of offshore tax evasion and avoidance and stashing of unaccounted money abroad requiring cooperation amongst tax authorities, the G20 and OECD countries have developed a Common Reporting Standard (CRS) on Automatic Exchange of Information (AEOI). India has joined Multilateral Competent Authority Agreement to implement to implement Automatic Exchange of Information based on Common Reporting System (CRS) for automatic exchange of information. From the year 2017, amongst several other countries, India has started sharing tax information on automatic basis.

The CRS on AEOI requires the financial institutions of the “source” jurisdiction to collect and report information to their tax authorities about account holders “resident” in other countries, such information having to be transmitted “automatically” on yearly basis. The information to be exchanged relates not only to individuals but also to shell companies and trusts having beneficial ownership or interest in the “resident” countries. Further, the reporting needs to be done for a wide range of financial products, by a wide variety of financial institutions including banks, depository institutions, collective investment vehicles, mutual funds and insurance companies.

These are very wide in scope and obliges the treaty partners to exchange a wide range of financial information, including that about the ultimate controlling persons and beneficial owners of entities.

For implementation of the FATCA and CRS, amendments have been made to section 285BA of the Income Tax Act, 1961 and necessary rules and guidelines have been framed. Under the FATCA and CRS bulk taxpayer information will periodically be sent by the source country of income to the country of residence of the taxpayer.
